# AMARAVATI CAPITAL CITY DEVELOPMENT PROJECT

## FINAL SOCIAL IMPACT ASSESSMENT REPORT THULLUR-1&2 VILLAGES

**JANUARY 2017** 

#### **SUBMITTED BY:**

ENVIRONMENT PROTECTION TRAINING & RESEARCH INSTITUTE
SURVEY NO.91/4, GACHIBOWLI
HYDERABAD – 500 032
TELANGANA

### TABLE OF CONTENTS

1. Executive Summary of Thullur-1&2 Village	01
1.0. Project and Public Purpose	01
1.1. Location	02
1.2. Size attributes of Land Acquisition	02
1.3. Social Impacts	05
1.4. Mitigation Measures	06
1.4.1. Green & Blue lattice	06
1.4.2. Primary green spaces	06
1.4.3. Secondary green links	06
1.4.4. Recreational Landscapes	06
1.4.5. Water bodies	07
1.4.6. Benefits for the Project Affected Persons	07
1.5. Impact on Livelihoods	07
1.5.1. Mitigation Measures	07
1.6. Impact on Utilities	08
1.6.1. Mitigation Measures	08
1.7. Impact during Construction Phase	08
1.7.1. Mitigation Measures	08
1.8. Assessment of Social Cost & Benefits	09
2. Detailed Project Description	11
2.0. Background	11
2.1. Nature, Size and Location of the Project	12
2.1.1. Geographic Positioning of Amaravathi	13
2.2. Transport Connectivity	13
2.2.1. Project Overview	15
2.3. Goals and Strategies	16
2.4. Developmental Phasing	18
2.5. Applicable Legislation and Policies	20
3. Team and Composition, Approach and Schedule for SIA	22
3.0. Team Composition	22
3.1. Objectives and Scope of the study	22
3.2. Approach and Methodology for Socio-Economic Studies	23

EPTRI, Hyderabad Page ii of iv

Final SIA Report for the Amaravathi Capital City Development Project	Illullul-1&2 (V
3.2.1. Phase – I: Pre Survey Activities	24
3.2.2. Phase II: Survey Activities	24
3.3. SIA Methodology	25
3.4. Findings of Consultation	27
3.4.1. Framework for continued consultation	28
3.4.2. Data Sources	28
3.4.3. Data from Secondary Sources	28
3.4.4. Data and information from Primary Sources	29
3.4.5. Schedule of SIA	29
4. Land Assessment of Thullur-1&2 Village	30
4.1. Proposed Land and Area	30
4.2. Total Land Requirement	30
4.3. Quantity of Land Proposed to be acquired	30
4.4. Type of Land	34
5. Socio Economic and Cultural Profile of Thullur-1&2 Village	35
5.0. General	35
5.1. The Project area	35
5.1.1. Land use Pattern	35
5.2. Project Impacts	36
5.3. Social Profile of the PAPs	36
5.3.1. Age wise Distribution	36
5.3.2. Family Structure	37
5.3.3. Religious Category of the PAFs	37
5.3.4. Social Category of Project Affected Families (PAF)	38
5.3.5. Marital Status of PAPs	38
5.3.6. Educational Status of PAPs	38
5.3.7. Living Conditions and Infrastructure Facilities	39
5.3.8. Number of dwelling rooms	40
5.3.9. Source of Water Facilities	40
5.3.10. Sanitation	41
5.3.11. Household Energy Sources	41
5.4. Economic Activity and Livelihood Pattern	41
5.4.1. Agricultural Scenario	42
5.4.2. Livestock Farming	42

Final SIA Report for the Amaravathi Capital City Development Project	– Thullur-1&2 (V)
5.4.3. Income and Expenditure	43
5.4.4. Expenditure	43
5.4.5. Loan Sources	44
5.4.6. Consumption Standard	44
5.4.7. Savings	45
5.4.8. Transport Facilities	45
5.4.9 Health Status	46
5.4.10. Morbidity pattern	46
5.5. Project Awareness	46
5.6. Project Perception of the PAFs	46
6. Legal Policies and Frame Work	48
6.0. Regulatory Framework	48
6.1. Environmental policies	48
6.2. Legal Provisions for Environment for Proposed Development	49
6.3. Social Impacts	55
6.4. Project Impacts	55
6.5. Land Requirement and Acquisition	56
6.6. Impact on Families	56
6.7. Loss of livelihood	56
7. Cost and Benefit Analysis	58
7.0. Introduction	58
7.1. Assessment of Public Purpose	58
7.2. Benefits from the Project	58
7.3. Determination of Compensation	59
7.4. Land Acquisition Cost	59
8. Social Impact Management Plan	61
8.1. Approach to Mitigation	61
8.2. Major Findings as SIA study	61
8.3. Measures to avoid mitigate and compensate impact	62
8.3.1. Mitigation Measures	62
Special Note and Minutes of the Meeting	60

#### 1. EXECUTIVE SUMMARY OF THULLUR-1&2 VILLAGES

#### 1.0. Project and Public Purpose

The Andhra Pradesh Reorganization Act 2014 (Central Act 6 of 2014), came into force on 2<sup>nd</sup> June, 2014, provided for the reorganization of the existing state of Andhra Pradesh. One of the most critical priorities for the new state is the formation of the New Capital city, which is very important from the perspective of economic development, cultural integrity and administrative functioning.

The Government of Andhra Pradesh has decided to establish a green field capital city as a liveable, environmentally sustainable and people's capital. For this purpose, the location of the capital was identified between Vijayawada and Guntur cities on the upstream of Prakasam Barrage on the river Krishna, with an area of 217.23 Sq. Km, which is covering a current population of 102401 in 24 revenue villages and part of Tadepalli Municipality which are covered under 26 LPS Units. The proposed Amaravathi capital city is being planned to accommodate a population of 3.55 million by 2050.

The proposed capital city is being developed with 'state-of-the-art' infrastructure including world class roads, water supply facilities, administrative and institutional complexes, drainage, sanitation, Solid Waste Management (SWM) facilities, river front development etc, among others.

**Vision:** The New Capital of Andhra Pradesh is envisioned to be the pioneer Smart City of India. It aims to be World Class and at par with the standards set forth by countries such as Singapore. The new capital will be an economic powerhouse that will create a range of earning opportunities for existing resident villagers by upgrading their skills, as well as provide high-tech and knowledge based opportunities under industrial sector to be globally competitive and attempts to make them qualified for self-employment by providing interest free loans up to 25 lakhs. Housing will be at the core of its planning and will aim to provide affordable and quality homes to all its residents. It will demonstrate global quality of life standards to offer high levels of convenience to people of all ages.

**Purpose:** The acquirement of lands required for the project is primarily under land pooling scheme as declared under A.P. Capital City LPS (F&I) Rules, 2015 and Land Pooling Development Scheme includes lands acquired for the project under LA, R&R Act, 2013. The Land Pooling Scheme is declared as per public purpose under AP-CRDA Act, 2014. Amaravathi Capital City Development Project is an infrastructure project which includes subsectors like transport, energy, water and sanitation, communication and social infrastructure. Hence the project is for public purpose within the meaning of section 2(1) of the LA, R&R Act, 2013.

EPTRI, Hyderabad Page 1 of 74

#### 1.1. Location

Figure 1 Key Plan Depicting the Geographic Location of the Project

#### 1.2. Size attributes of Land Acquisition

The geographical extent of **Thullur-1&2** villages is **Ac. 3687.9800 cents**. An extent of Ac. **3243.5480 cents** is the target under Land Pooling Scheme / Land Acquisition. An extent of Ac. **3099.7580** cents has been acquired under the land polling scheme and now an extent of **Ac. 143.7900 cents** are to be acquired under RFCT LA R&R Act, 2013. Details of the land to be acquired along with the extent and survey no's have been presented in the Table E1

Out of the total extent Ac. 143.7900 cents notified under section 4(1) of the LA R&R Act, 2013, the Land Acquisition Officer has reported that Ac. 9.2650 cents have been acquired under Land Pooling Scheme or withdrawals and now the target under LA is Ac. 134.5250 cents.

#### 1.3. Social Impacts

The objective of Social Impact Assessment (SIA) is to prepare a complete inventory of structures, affected families and persons, to identify social impacts, and provide mitigation measures with compensatory mechanisms. In order to capture data for the present exercise, a questionnaire exercise was carried out. As a part of SIA, socio- economic survey has been conducted with the experts of the survey team to identify the affected structures, families/persons and list out the adverse impacts of the project.

EPTRI, Hyderabad Page 7 of 74

The social impacts of the AP Capital City Development Project have been classified as

- i. Impact during beginning of the construction stage
- ii. Impact during Construction stage
- iii. Impact during Operation stage or post construction stage

The main aim of the Social Impact Management Plan is to ensure that the various adverse impacts are mitigated and the positive impacts are enhanced. The social impact management measures shall be implemented during the various stages of the project viz. Pre-construction Stage, Construction Stage and Operational Stage. A description of the various impacts identified during different stages of construction is presented in Table E2.

Beginning	Construction	Post Construction
Acquisition of	Dust pollution	Social, Economic and
agricultural land	Noise pollution	Infrastructural Development which will improve the quality of
Acquisition of trees	labour employment & small & medium scale markets with	life
Loss of livelihood	livelihood opportunities during	

**Table E2: Identification of Social Impacts at Various Projects** 

#### 1.4. Mitigation Measures

Potential impacts due to land related impacts are attributed to loss of land, change in land use and loss of access to present livelihood. The impacts of the project due to change in land-use are significant and irreversible; however the Concept Plan has addressed the issues and all necessary mitigating measures. The village site / habitation is excluded from the Capital City Development Project and included in the village development plan with least displacement of families. However, land will be acquired for construction of Roads / Railways as per requirements of master plan in the village site / habitation zone. The plan can be summarized into the following planning strategies and typologies:

#### 1.4.1. Green & Blue lattice:

- ✓ Green grid The green and blue network primary follows the road network creating passive recreational fingers across the city. These fingers are anchored with large parks and open spaces close to the 2 reservoirs. Each finger terminates at the scenic river Krishna waterfront.
- ✓ Active, beautiful and clean waterways weave through the Amaravathi Capital city. These waterways follow the existing irrigation canals and reservoirs to form an interwoven water network.
- ✓ The plan creates a variety of interfaces between the green and blue creating different water themed public spaces such as lake parks, waterfront corridor, linear parks, etc.

#### 1.4.2. Primary green spaces:

✓ Primary green spaces including large city parks, lakes, town parks, neighbourhood parks,

EPTRI, Hyderabad Page 8 of 74

water bodies and public plazas form the foundation of the city scale recreational network that provides recreation opportunities and improves a sense of community. These parks help in creating large public open spaces which can double up as event spaces for the larger community within the Capital city.

✓ Primary greens are planned along the existing canals and water bodies to serve as city's main ecological corridors. They play a dual role in flood management, and environmental conservation of the native species.

#### 1.4.3. Secondary Green Links

✓ Secondary greens weave through the townships connecting the various town and neighbourhood parks. Planned as the secondary green fingers of the city, these greens act as passive recreational spaces, interactive jogging trails and non-motorized transports corridors across the city.

#### 1.4.4. Recreational Landscapes

- ✓ Recreational landscapes include theme parks, golf courses, sports and recreational spaces.
- ✓ In line with the township model several sports and recreation parcels have been allocated in the town Centre, and in proximity to the neighbourhood Centre.
- ✓ Large city level sports facilities such as cricket stadium, golf courses and theme parks have been strategically distributed across the city.

#### 1.4.5. Water Bodies

✓ Water bodies including rivers, canals, irrigation channels and reservoirs have been carefully protected and integrated with the green spaces as discussed in the previous section.

#### 1.4.6. Benefits for the Project Affected Persons

The impacts due to acquirement of land are expected to be minor with the implementation of the land pooling scheme for majority extent of lands covered by the project.

- ✓ Providing land pooling benefits to the landowners who entered into Development Agreement with CRDA.
- ✓ Demarcation of village site / Habitation and not including the area in capital city development except for the requirements of roads / railways or for village development,
- ✓ Payment of annuity prior to taking possession of land or any physical displacement for the damages sustained in terms of loss of net agricultural income.
- ✓ Payment of pension of Rs. 2,500/- per month to all landless families for 10 years towards transitional assistance to support economic loss;
- ✓ Dissemination of information about the acquisition and compensation calculation process and benefits under LPS
- ✓ Establishing a grievance redressed mechanism;
- ✓ Option for work during project construction period;

EPTRI, Hyderabad Page 9 of 74

- ✓ Continuation of community engagement process;
- ✓ Provision of access to local villagers to continue with their pre project movement pattern.
- ✓ Agriculture loan waiver up to Rs. 1,50,000/- NREGA up to 365 days / Skill development training with stipend/free education/free medical facilities as prescribed by Govt. towards other benefits.
- ✓ Interest free loan up to 25 lakhs to all the poor families for self-employment.

#### 1.5. Impact on Livelihoods

Long term livelihoods have been, or will be, impacted for those families who have surrendered their lands for the project. Most of the people (landowner as well as landless) of the area are dependent on agriculture for their livelihood, and there is permanent loss of current livelihood for almost the entire population.

#### 1.5.1. Mitigation Measures

Since major land requirements have been acquired under Land Pooling Scheme and after taking the following mitigation measures, the impact could be reduced considerably.

- ✓ Payment of compensation and R&R benefits as per LA R&R Act, 2013;
- ✓ Preference to the land losers as per eligibility to work during project construction period.
- ✓ Provide necessary skill improvement training to affected people to have more livelihood opportunities in project operation phase.

#### 1.6. Impact on Utilities

All the village site / extended habitations are excluded from displacement without any disturbance to power lines, telephone lines, and water supply etc., Care shall be taken to construct the project without disturbing general utilities. Provision of infrastructure facilities in the proposed plan will improve livelihood conditions.

#### 1.6.1. Mitigation Measures

This impact is expected to be minor and with the implementation of the following mitigation measures the potential disruption to existing utilities will be further minimized.

- ✓ Coordination with respective concerned department for utility relocation;
- ✓ If any displacement is required and discontinuation of utilities if any arises necessary temporary arrangement shall have to be taken;
- ✓ Providing intimation to the people in advance about any disruption to services.

#### 1.7. Impact during Construction Phase

The construction phase of the Project involves a number of sequential activities, collectively

EPTRI, Hyderabad Page 10 of 74

named as "spread". The area affected by the construction, laying of road, clearing of site, construction of residential, commercial and industrial units, construction of social infrastructure, construction of treatment plant, laying of sewer line, and labour camps areas etc. Based on the assessment of above activities and in consultation with the different stakeholders, the following impacts are being envisaged for the construction phase of the project.

#### 1.7.1. Mitigation Measures

Potential impacts during construction period include impact due to the influx of migrants and associated health related risk to the community. These impacts are expected to be moderate and with the implementation of the following mitigation measures the potential impact of loss of livelihood will be further minimized.

- ✓ Engage as many locally available unskilled, semiskilled and skilled human resource as practically possible to avoid large scale in migration of labour force; Rural agriculture labour to adopt urban agriculture / non-agricultural skills.
- ✓ Provision of infrastructure and amenities for migrant labour in construction camp to avoid dependence on limited local resources;
- ✓ Barriers will be provided to prevent ingress of persons into the construction site and also to protect public exposure to hazards associated with construction activities;
- ✓ Additional safety precaution while working in market and settlement areas and especially around the trenches;
- ✓ Screening, surveillance and treatment of workers, through the provision of medical facilities and, where required, immunization programs;
- ✓ Undertaking health awareness and education initiatives among workers, especially about sexually transmitted disease;
- ✓ Prevention of larval and adult propagation through sanitary improvements and elimination of breeding habitats close to human settlements in the close vicinity of construction site;
- ✓ Implementation of a vector control program;
- ✓ Avoiding collection of stagnant water;
- ✓ Educating project personnel and area residents on risks, prevention, and available treatment for vector-borne diseases;
- ✓ Promoting use of repellents, clothing, netting, and other barriers to prevent insect bites;
- ✓ Following safety guidelines for the storage, transport, and distribution of pesticides to minimize the potential for misuse, spills, and accidental human exposure; and Road safety measures.

#### 1.8. Assessment of Social Cost & Benefits

This section provides social costs by comparing project benefits (positive impacts) and

EPTRI, Hyderabad Page 11 of 74

negative impact (social cost), from construction of Amaravathi–AP Capital City Development Project. The cost of Land Acquisition of **Ac. 134.5250 cents** of **Thullur-1&2** villages is estimated at **Rs. 12.68 crores.** Positive and negative impacts have been discussed in following Table E3.

Table E3: Positive and Negative aspects of the project

Sl. No	Positive Impact	Negative Impact	Remarks
1	Enhanced cost of land	Loss of Agriculture	After careful examination
1	per acre	Land	of various parameters of
2	Social Development	Loss of livelihood in	cost and benefit (positive
2	Social Development	terms of agriculture	and negative impacts), it

3	of life		through skill development
	Increase in livelihood		and self-employment.
6	opportunities and self		
	employment		

The project involves predominantly acquisition of agricultural land. The land is made available through land pooling scheme. This project will help the local people through infrastructure development, social development and will increase livelihood opportunities and self-employment sources.

EPTRI, Hyderabad Page 12 of 74

#### 2. DETAILED PROJECT DESCRIPTION

#### 2.0. Background

The Andhra Pradesh Reorganization Act 2014 came into existence after the 2<sup>nd</sup> June, 2014, provided for the reorganization of the existing state of Andhra Pradesh. The formation of a new capital city - critical for its administration, economic development, and cultural integration – is an immediate priority for the Successor State of Andhra Pradesh.

In accordance with Section 6 of the Act, on 28.03.2014, the Government of India constituted "an expert committee to study various alternatives regarding location of the new capital for the successor State of Andhra Pradesh and make appropriate recommendations". The five member expert committee, headed by Shri KC Sivaramakrishnan submitted their final report to the GoI on 27.08.2014. The Committee studied multiple options, and also highlighted the need to ensure balanced regional development. The Committee has not made specific recommendation selecting an area and the same report was forwarded to State Government by GoI.

In this context, the Cabinet of the Government of Andhra Pradesh met on 01.09.2014, and resolved, "To locate the Capital City in a central place of the state, around Vijayawada, and to go for decentralized development of the State with 3 Mega Cities and 14 Smart Cities. It is proposed to go for Land Pooling System to be worked out by a Cabinet Sub Committee".

As regards the new Capital, the Government is deeply committed to ensuring that the process of building the new capital involves the participation of people. It is in this context that the Cabinet has suggested the use of Land Pooling scheme to consolidate the land required for the capital. This will enable the local landholders to proactively participate and benefit from the development of the capital city, and will create a win-win situation for the landholders, citizens and the Government. As a result, the new capital city of the State of Andhra Pradesh can proudly call itself a "people's capital".

The creation of a world-class capital city at a central location is essential to create a levelplaying field for the new State. As experience from across the world demonstrates, a vibrant capital city can act as a catalyst for economic development for the entire state and become an iconic city that is a source of pride for all its citizens.

The Government of AP has decided to establish the new capital city as a liveable, environmentally sustainable and people's capital. For this purpose, the location of the capital was identified between Vijayawada and Guntur cities upstream of Prakasam Barrage and on the right bank side of river Krishna.

The proposed development will be based on the GO-254, MA and UD (M2) Department dated 30th December 2014, read with GO MS No-141- MA & UD (M2) Department dated 9th June through which Capital City area has been declared under AP CRDA, Act, 2014.

The list of villages with the acquirement of land area through LPS / LA (Source: APCRDA) is given in **Table 2.1** below.

EPTRI, Hyderabad Page 13 of 74

Table 2.1: Village wise Extent of Area to be acquired through LPS /LA

		TOTAL	38049.4785

#### 2.1. Nature, Size and Location of the Project

The proposed Amaravathi City of Andhra Pradesh falls in Guntur district of Andhra Pradesh and at a distance of approximately 30 km from the Vijayawada town. The proposed development site is predominantly of rural character with area of **217.23 sq.km** and the land to be acquired with an area of **38049.48 acres**; this is covered in 24 revenue villages and part of Tadepalli municipality falling in three mandals namely Thullur, Tadepalli and Mangalagiri. The site is abutting the River Krishna on the west of Old National Highway from Prakasam Barrage to Y-junction at Mangalagiri. The nearest railway station is K C Canal Station near Tadepalli and the nearest airport is at Gannavaram.

The existing land use of the site is consisting of - agriculture, land for grazing, fruit and flower plantations, village settlements and village ponds etc.

EPTRI, Hyderabad Page 14 of 74

#### 2.1.1. Geographic Positioning of Amaravathi

The proposed site is towards the west of Vijayawada at about 3 km. The exact coordinates of the site are shown in Figure 2 below. While attempt has been made to accurately depict the boundary, in view of the technical limitations minor variations in the boundary may be observed in representation. Official boundary is available with APCRDA and in public domain.

#### 2.2. Transport Connectivity

#### Air connectivity

- ✓ Existing Gannavaram airport is at 30 minutes' drive from the city centre
- ✓ Expansion of this airport is planned in near future and it will be upgraded to an international airport.

#### Road connectivity

✓ The existing national highway (NH16) will connect the Amaravathi city to Vijayawada and Guntur, and further connect to Vishakhapatnam and Chennai.

Figure: 2. Amaravathi Capital City Site

80.4840

- ✓ The Amaravathi Capital city has good connectivity to the Vijayawada rail station via NH16. The Vijayawada rail station is one of the busiest rail stations in the country.
- ✓ There is also an existing rail station in the Mangalagiri town.
- ✓ A new High Speed Rail alignment has also been proposed for connecting the Amaravathi Capital city. As illustrated in **Figure 3**, this alignment runs along the approved national highway.
- ✓ There is a planned MRT network within Vijayawada. There is potential to tap on this public transportation network and extend it into the Amaravathi Capital city.

EPTRI, Hyderabad Page 16 of 74

#### 2.2.1. Project Overview

The Andhra Pradesh Capital Region Development Authority Act (APCRDA & CA), 2014 has come into force on 30<sup>th</sup> December, 2014. The Act mandates a) establishment of a development authority for the purpose of Planning, coordination, execution, supervision, financing, funding and for promoting and securing the planned development of the Capital Region and b) to construct a Capital City Development Project for the State of AP.

#### Vision, Goals and Strategies of the Amaravathi Capital City

Vision: The New Capital of Andhra Pradesh is envisioned to be the pioneer Smart City of India. It aims to be World Class and at par with the standards set forth by countries such as Singapore. The new capital will be an economic powerhouse that will create a range of jobs for existing resident villagers by upgrading their skills, as well as provide high-tech and knowledge based industry jobs to be globally competitive. Housing will be at the core of its planning and will aim to provide affordable and quality homes to all its residents. It will demonstrate global quality of life standards to offer high levels of convenience to people of all ages. The proposal will capitalize on the rich heritage possessed by the region and utilize it to create a unique identity for the new capital. Sustainability and efficient management of resources will form another important pillar of this new capital. It will be supported by maintaining the clean and green character that the site currently demonstrates by strengthening these ideas in to the new capital master plan.

Figure 4: Capital Region with Mandal boundaries and Capital City Boundary

EPTRI, Hyderabad Page 17 of 74

#### 2.3. Goals and Strategies

#### (I) World Class Infrastructure

Goal: 135 Km of Public Transport corridors by 2050 > 600 km of Road Network by 2050

#### **Strategies:**

- ✓ Build state-of- art public transport both for Capital Region and Amaravathi Capital city
- ✓ Develop a highly efficient road network at par with international standards
- ✓ Encourage high percentage of modal share using public transport
- ✓ Plan for a long term 2050 horizon and reserve transit corridors where necessary
- ✓ High speed Railway to have a station in the Amaravathi Capital city
- ✓ Develop a world class International Airport to serve the Capital Region
- ✓ Capitalize on the opportunity to use National Waterway for trade
- ✓ Plan strategically to allow easy transfer between different modes of transport

#### (II) Jobs and Homes for all

Goal: 3.55 million Resident populations by 2050 and 1.5 Million Jobs by 2050

#### **Strategies:**

- ✓ Promote high-value added agriculture and agro-based industries
- ✓ Create opportunities for existing dwellers to upgrade skills
- ✓ Introduce a mix of knowledge based high-tech industries to attract investments
- ✓ Encourage home ownership to create a sense of identity for citizens
- ✓ Provide sufficient affordable housing to cater to the needful
- ✓ Strategize a slum free city through careful planning
- ✓ Phase out industries strategically for long term sustained growth
- ✓ Create a favourable policy framework to implement and support the Amaravathi Capital city development

#### (III) Green and Clean

Goal: >20% area reserved for green and Blue and 25+ km Public River waterfront

#### **Strategies:**

- ✓ Create a network of parks and greens by integrating the village ponds
- ✓ Ensure access to park for every citizen within easy walking distance
- ✓ Make productive use of natural features on the site without damaging them
- ✓ Reserve most of the waterfront along Krishna River for public use
- ✓ Mandate retaining the green network reserved in the Amaravathi Capital city Plan

EPTRI, Hyderabad Page 18 of 74

- ✓ Reserve high value agriculture land as no development zone wherever possible
- ✓ Utilize the natural features such as forest and hills to create a regional green network.
- ✓ Create an image of city sitting within the water and greens

#### (IV) Quality of living

Goal: Parks and Public Facilities within 5-10 minute walking distance

#### **Strategies:**

- ✓ Ensure public transit is within easy walking distance for all
- ✓ Convenience of neighbourhood centre amenities within walking distance
- ✓ Safe environment with universal access for all ages
- ✓ Provide opportunities for learning and enhancing careers within the Amaravathi Capital city and Region
- ✓ Provide excellent health care facilities at affordable costs within easy reach
- ✓ Ensure ample opportunities to live, work, learn and play
- ✓ Ensure ease of commute within 30 minutes from origin to destination with Amaravathi Capital city

#### (V) Efficient Resource Management

Goal: Flood resistant City towards Net Zero Discharge

#### **Strategies:**

- ✓ Adopt efficient flood control techniques and protect most waterways in the city
- ✓ Promote "Reduce, Recycle and Reuse"
- ✓ Establish state of art waste management and disposal systems across the city
- ✓ Develop a smart grid in the city for efficient management of power and energy
- ✓ Encourage use of renewable energy to maximum extent possible
- ✓ Integrate the storm water drainage system with the existing canal and village tank network and utilize for flood management and recreation
- ✓ Encourage certification of projects using global standards such as IGBC and LEED

#### (VI) Identity and Heritage

**Goal:** > 220 km of Heritage and Tourism Network using Roads, Metro and waterways

#### **Strategies**

- ✓ Preserve all historic and culturally important sites
- ✓ Promote culture and heritage attractions for locals and tourists alike
- ✓ Compliment adjacent cities, at the same time establish a unique identity
- ✓ Integrate the existing villages as a vital component of city development

EPTRI, Hyderabad Page 19 of 74

- ✓ Development nodes within the city that reflect the culture of the State and region.
- ✓ Dedicate strategic locations that will allow people to come together and organize cultural activities
- ✓ Create a tourism circuit that links all the existing heritage features and new nodes created in the city.

#### 2.4. Developmental Phasing

The concept plan for Amaravathi city is prepared in three phases and up to 2050. The phased development takes into account the growth potential, vision of the government and aspirational needs of the people. The phases are categorized as Catalyzing; Momentizing and sustaining the details of each phase are furnished below:

Figure 5: Capital City Boundary.

#### **Phase 1-Catalyze**

This phase will span for the first 10 years for catalyzing urban developments within the Amaravathi Capital city. It will include a large number of infrastructure projects in order to create the critical base for development. This phase will catalyze developments within the capital by tapping on the existing and upcoming infrastructure, including the Vijayawada MRT and the new national highway.

The first phase will provide a variety of housing options for 850,000 population Comprising about 39% of the total Amaravathi Capital city Area, this phase will create 350,000 jobs in the civic, commercial and industrial sectors.

#### **Key Projects**

✓ Development of the government administrative core along the north-south axis housing

EPTRI, Hyderabad Page 20 of 74

the secretariat, high-court, legislative assembly, Chief Minister's Office and other government offices.

- ✓ Development of the proposed Business Park within the SEED Development Area.
- ✓ Development of the north-eastern Regional Centre housing a transportation hub.
- ✓ Development of the light Industrial cluster proposed in proximity to the SEED Development Area (towards west). This cluster will primarily house high-tech light industries.

#### **Phase 2-Momentize**

This phase will focus on the medium term development (2025-2035) in order to momentize urban development within the Amaravathi city. Building on the infrastructure developed in the previous phase, Phase 2 will momentize development by creating new employment centres and expanding residential areas.

This phase will span over 10 years (2025 - 2035). Phase 2 will accommodate over 900,000 more people and create 380,000 more jobs for its residents.

#### **Key Projects**

- ✓ Development of the proposed residential developments in proximity to the western edge of the north-south ceremonial axis aka administrative core.
- ✓ Development of the southern industrial cluster along the national highway.
- ✓ Development of the Amaravathi Capital city central park and water reservoir.
- ✓ Development of the proposed MRT network within the city.
- ✓ Development of the gateway commercial node on the northern bank of river in close proximity to the existing Vijayawada city

#### **Phase 3- Sustain**

This phase will focus on the long term development (2035-2050) of the city in order to achieve successful implementation of the overall Concept Plan. This phase will sustain growth and capitalize on the infrastructure developed in the previous phases.

Spanning over 15 years (2035 - 2050), this phase will largely support medium and high density population accommodating 2.4 million people within the Amaravathi Capital city.

As the employment centres within the Amaravathi Capital city will now be reasonably established, this phase will create over 1 million more jobs for its residents. The land area distribution plan for the Phase 3 of Amaravathi capital City development is shown in.

#### **Key Projects**

- ✓ Development of eco-resorts on the clusters of islands in river Krishna.
- ✓ Development of the Sports City
- ✓ Proposed within the north-eastern recreation node.
- ✓ Development of the national high speed rail ink.

EPTRI, Hyderabad Page 21 of 74

- ✓ Development of numerous high density residential clusters in the western and southern parts of the city.
- ✓ Development of the downtown (SEED capital) water front cluster.

#### 2.5. Applicable Legislation and Policies

Table 2.2 presents various regulations and legislations relevant to Amaravathi – AP Capital City Development Project.

Table 2.2 Applicable Legislation and policies

SL · No	Act/Rules	Purpose	Applic able Yes/No	Reasons for applicability	Authority
1	AP CRDA Act, 2014 and AP Capital City LPS (F&I) Rules, 2015	Set out rules for procurement of lands by Authority	Yes	This Act and Rules are applicable for procurement of lands and implement development plans with the voluntary participation of landowners.	MA & UD Dept., / Commissioner, CRDA / District Collector, Guntur / Addl. Commissioner's / Competent Authorities
2	The Right to Fair compensation and Transparency in Land Acquisition and Rehabilitation And Resettlement, 2013	Set out rule for acquisition of land by government	Yes	This act will be applicable to as there will be acquisition of land for Amaravathi – AP Capital City project.	Revenue Department & Land acquisition, Collector & Commissioner R & R
3	Environment Protection Act- 1986	To protect and improve overall environment	Yes	As all environmental notifications, rules and schedules are issued under this act.	MoEF. Gol; State Gov. CPCB; SPCB
4	The forest (conservation) Act 1980	To check deforestation by restricting conversion of forested areas into non – forested areas	No	This act is not applicable to as there are no forest areas	Forest Department GoAP
5	National Environment Appellate Authority Act (NEAA) 1997	Address Grievances regarding the process of environmental clearance.	No	Grievances if any will be dealt with, within this act.	NEAA

EPTRI, Hyderabad Page 22 of 74

6	Air (Prevention and Control of Pollution) Act, 1981	To control air pollution by & Transport controlling emission of air Department. Pollutants as per the prescribed standards.	Yes	This act will be applicable during construction; for obtaining NOC for establishment of hot mix plant, workers camp, construction camp, etc.	SPCB
7	Water Prevention and Control of Pollution) Act 1974	To control water pollution by controlling discharge of pollutants as per the prescribed standards	Yes	This act will be applicable during construction for (establishments of construction camp, workers camp, etc.	SPCB

EPTRI, Hyderabad Page 23 of 74

#### 3. TEAM AND COMPOSITION, APPROACH AND SCHEDULE FOR SIA

#### 3.0. Team Composition

Commissioner, R&R, (FAC) & secretary to Government, (Irrigation) water resources Department, Government of Andhra Pradesh vide Notification No. Proc.Rc.No.53/CRR/A/2016 dated 25.02.2016 has notified Environment Protection Training and Research Institute (EPTRI) as State Social Impact Assessment Unit. The Collector, Land Acquisition, has applied and provided details of land to be acquired to SIA unit. The SIA notification for AP Capital City project was published on 25<sup>th</sup> February, 2016. In response to the SIA request and details provided by the Commissioner, R&R, and District Collector, Guntur a team to carry out SIA has been constituted.

#### 3.1. Objectives and Scope of the study

The main objective of the study is to ensure that the project addresses the adverse impacts on the livelihood of the people and those affected have access to project benefits, both during project construction as well as operation.

Social Impact Assessment has been carried out in accordance with the provision of section 4

EPTRI, Hyderabad Page 24 of 74

of the RFCT LA R&R Act, 2013, for economic and social considerations. The SIA has assessed socio-economic impacts of the proposed acquisition based on information collected from secondary and primary sources. The SIA team has focused upon following aspects while conducting the study.

- ✓ Public and peoples development centric.
- ✓ Possibility of minimizing land acquisition and alternatives
- ✓ To carry out a socio-economic, cultural and political/institutional analysis to identify the project stakeholders and social issues associated with the project;
- ✓ To assess the extent of agriculture land loss and undertake the census of potential project affected people;
- ✓ To identify likely migration of agriculture labourers and others and to develop a strategy to reduce such incidence; and
- ✓ To develop a consultation framework for participatory planning and implementation of proposed mitigation plan
- ✓ To examine potential positive and negative impacts on the socio-economic condition of people in the project area,
- ✓ To develop appropriate measures to minimize the negative socio-economic impacts,
- ✓ Viability of the project in terms of potential benefits vis-a-vis social costs and adverse impacts.

The scope of socio-economic study is to include the impacts due to the proposed Amaravathi Capital City Development Project. Based on the site survey, socio-economic data about project affected families along with an inventory of property will be generated. Based on the data, the project proponent shall develop measures to safeguard the PAFs from the loss occurred due to the proposed project. The primary objective is to identify the impacts and to plan measures to mitigate losses of the project while the specific objectives are as follows:

- ✓ To prepare an action plan for the project affected people to improve or at least to retain their living standards in the post settlement period.
- ✓ To outline the entitlements for the affected persons for the payment of compensation and assistance for establishment of livelihoods.
- ✓ To develop communication mechanism to establish harmonious relationship between APCRDA and project Affected persons (PAP's)
- ✓ To ensure adequate mechanism expeditious implementation of R&R.

#### 3.2. Approach and Methodology for Socio-Economic Studies

Approach and methodology mainly consists of quantitative and qualitative tools and techniques. The study was conducted in two phases.

EPTRI, Hyderabad Page 25 of 74

#### 3.2.1. Phase – I: Pre Survey Activities

#### Collection and review of project literature

This phase intends to familiarize with the concerned and important stakeholders to identify and collect the available literature and to scope the activities. This involved two pronged approach (a) discussions with Project Implementing authorities and other concerned. b) Collection of available relevant project literature. Consultations were held with concerned revenue officials to establish the ownership of land. Literature review and consultations formed the basis for identification of key stakeholders.

#### Rapid reconnaissance survey to familiarize field activities

Following to the review and consultations, rapid preliminary field visits were conducted as part of reconnaissance exercise. This provided the basis for field research preparation and helped in testing the questionnaires and checklists.

#### Scoping and other Pre survey activities

Both the review and rapid reconnaissance survey have helped in finalizing the study instruments and preparation of Questionnaires and work plan.

#### 3.2.2. Phase II: Survey Activities

#### Census and socio-economic household survey for all affected persons

The census survey of all the project-affected persons was conducted in the second phase. The survey, inter alia, has assessed the impacts of the project, the socio-economic conditions, and living standards of affected persons due to the project implementation. The following were collected during the survey:

- ✓ Socio economic conditions of the affected persons
- ✓ Family structure and number of family members
- ✓ Bringing high level of Literacy
- ✓ Occupation type and income levels
- ✓ Inventory of household assets
- ✓ Loss of immovable assets due to the project by type and degree of loss
- ✓ Accessibility to the community resources
- ✓ Perceptions on the resettlement and rehabilitation measures
- ✓ Perceived income restoration measures
- ✓ Grievances of affected persons and its re-addressed
- ✓ Willingness to participate in the project

#### **Qualitative survey**

Surveys were conducted for evaluation of both affected population and implementation capacities. The qualitative survey included focus group discussions and in depth interviews

EPTRI, Hyderabad Page 26 of 74

with various sections of people such as women, knowledgeable persons and community leaders to elicit their expectations and suggestions, which will support and provide additional information collected through quantitative survey.

#### Assessment of livelihood losses

The study focused on identifying people losing their livelihood directly or indirectly. Also through consultations the rehabilitation strategies for those losses by way of training for income generation and other remedial and restoration measures were identified. For this the consultations were conducted among:

- ✓ People losing properties/resources
- ✓ Knowledgeable persons
- ✓ Opinion leaders in the community

#### Review of legal policy provisions and implementation capacity of R&R services

Relevant national and state legislations and regulations were reviewed. To study implementation arrangements and their capacity in delivering the R&R services, verification of these arrangements and in-depth interviews with authorities were conducted.

#### 3.3. SIA Methodology

The indicative methodology adapted to study above mentioned aspects of SIA is briefly presented in Table-3.1

Table –3.1 Indicative methodology of Conducting SIA study

nature and cost of addressing	study, consultation
them and impact of these costs or	with stakeholders
the overall cost of the project	
via-à-vis the benefits of the	
project	

The social assessment of the project has been carried out as per requirement of RFCTLAR&R Act, 2013. The details of methodologies include:

**Socio-Economic Survey:** The Survey was carried out for all the Project affected persons along with the court cases and demarcation of village site / habitation issues in the month of May 2015. The socio-economic survey has delineated impacts as minor impacts and major impacts.

**Stakeholder's Consultation:** Consultations were carried out at individual and village level. Important issues were discussed at village level include (but not limited to) impact of land acquisition on the livelihood of the people, compensation as per LAR&R 2013, Findings, suggestions and opinion of people have been taken into account while preparing social impact management plan. (Details of the consultations have been presented in the following sections).

**Information Dissemination:** The dissemination process and the type of information shared with the stakeholders during consultation are described below:-

- ✓ While undertaking inventory of Amaravathi AP Capital City Development Project, the procedure under Land Acquisition, court cases and demarcation of village site / habitation, sample survey of PAFs, information dissemination focused on the proposed project characteristics, acquired agriculture land area required for the construction of AP Capital City Development Project.
- ✓ PAFs were consulted to inform them about, resultant impacts and possible social-cultural conflict (if any) including loss of agriculture land during capital city construction.
- ✓ During these consultations, Google maps, maps given by Deputy Collector Guntur were used to explain about the location of proposed developments. This activity helped people to understand the impact on their assets and properties.
- ✓ A pamphlet on the project is prepared and shared with the Stakeholders and Villagers explaining proposed project and social impact assessment studies during public hearing.
- ✓ Consultation during Sample Survey Stage: SIA at this stage included consultations at individual PAP level, groups of local people and focused group discussions at strategic location at village Thullur-1&2, Thullur mandal to understand acceptability of the project and issues related to land acquisition. The overall objective of these consultations was to ensure that the local people participate in the project specific studies and to express their concerns and opinions. Suggestions/preferences which were shared by the stakeholders, local people are considered in preparation of SIA report.

Figure-6: Photos of Grama Sabha Conducted with Project Affected Families

#### 3.4. Findings of Consultation

Consultations were carried out at individual as well as Village level. Village level consultations were held during sample socio-economic survey. Important issues were discussed during consultation with the stakeholders individually and also at village level. These issues were related to loss of livelihood, compensation for acquired land and properties, provision of livelihood opportunities. Issues raised during these consultations are presented below (Table 3.2).

EPTRI, Hyderabad Page 29 of 74

**Table 3.2: Important Issues of Consultation** 

Issues Identified	Solutions
Provision of Job in lieu of compensation and Loss of source of livelihood because of loss of agricultural land as per sl.no.4 of the Second Schedule of New LA R&R Act, 2013	Since it is an infrastructure project jobs as such cannot be created. For livelihood losers lump sum onetime payment / annuity at their choice could be provided as per LA R&R Act provisions.
Compensation for trees as per Section 29 of LA R&R Act, 2013.	Determination of value as per JD Agriculture / AD Horticulture / DFO
Demarcation of village sites / habitations.  Free education and medical facilities	Responsibility of the Government is to Demarcate village sites / habitations as per Rule 5(4) read with Schedule –III (1) (ii).
Provision of infrastructural amenities	Govt. promises to provide free education and medical facilities to all those residing as on 08-12-2014.
	As per the provisions mentioned under the third Schedule of LA R&R Act, 2013.

#### 3.4.1. Framework for continued consultation

As per provision of section 4(6) and section 7(6) of the LA R&R Act 2013, the SIA required to be disclosed to people at conspicuous locations, Deputy Collector, Village Panchayat, Tehsil, District offices. To fulfil the goal the SIA team ensures that

- ✓ Key stakeholders, Commissioner, CRDA (requiring body), Government of Andhra Pradesh, District Collector, Guntur (representing appropriate Government) and EPTRI, Hyderabad will be involved actively in approval of recommendations of social impact assessment studies by expert appraisal group as per provision of section 7 of LAR&R Act 2013 enabling the District Collector, Guntur to submit the report to Govt. for taking decision.
- ✓ Identified critical issues will be given due attention in developing good communication strategies with the land owners during acquisition process under LAR&R Act 2013.
- ✓ Key features of the compensations and R&R entitlements (as per provision of section 30 of the LAR&R Act 2013) have been displayed on billboards, in the village for understanding and acceptability.

#### 3.4.2. Data Sources

The following section highlights data sources and activities being carried out for the preparation of SIA report.

#### 3.4.3. Data from Secondary Sources

Following information is collected from the published documents to appreciate the project background, land ownership status, and statistical information required for baseline information.

EPTRI, Hyderabad Page 30 of 74

- ✓ The Right to Fair Compensation and Transparency in Land Acquisition 2013,
- ✓ Primary Census Abstract, District Census Handbook 2011,
- ✓ District wise Socio-Economic Indicators (Directorate of Economics & Statistics, Government of Andhra Pradesh),
- ✓ Acts and Policies of Government of India and Government of Andhra Pradesh related to R&R and Land acquisition.

#### 3.4.4. Data and information from Primary Sources

- ✓ Structured Survey Baseline and Census survey in a prescribed format
- ✓ Public Consultation
- ✓ Focused Group Discussions
- ✓ Consultation with key informants
- ✓ Interviews with important secondary stakeholders

#### 3.4.5. Schedule of SIA

Details' showing the date wise work undertaken for Social Impact Assessment (SIA) of land acquisition for Amaravathi Capital City project in Thullur-1&2, Thullur Mandal, Guntur District of Andhra Pradesh is presented below.

Date	Particulars		
20.01.2016	Collectorate, Guntur district has approached EPTRI for carrying out the SIA study under section 4 of RFCT LAR&R Act, 2013.		
20.02.2016 Constitution of SIA Team for carrying out a SIA study Amaravathi capital city project.			
01.03.2016	Received approval from APCRDA and sanctioned advance fees		
04.04.2016 26.04.2016	Notification for commencement of conduct of SIA		
13.05.2016	Grama Sabha at 4.00 PM		
13.05.2016	Training of SIA Team at CRDA Unit-11 office, Thullur-1&2		
13.05.2016	Field Survey in Village Thullur-1&2, at Thullur Mandal, Guntur.		
18.10.2016 18.12.2016	Submission of Draft SIA/SIMP report for public hearing		
22.12.2016	Date of Public Hearing		
17.01.2017	Date of Final Report

#### 4. LAND ASSESSMENT OF THULLUR-1&2 VILLAGES

#### 4.1. Proposed Land and Area

Land acquisition of the proposed Amaravathi Capital city is being carried out as per provisions of the Right to Fair Compensation and Transparency in Land Acquisition and Rehabilitation and Resettlement 2013. The AP-CRDA has given requisition for acquisition of lands in the villages Lingayapalem, Uddandarayunipalem, Malkapuram, Velagapudi, Nelapadu, Shakamuru, Inavolu, Mandadam, Venkatapalem, Ananthavaram, Nekkallu, Thullur, Dondapadu, Pichukalapalem, Abbarajupalem, Borupalem, Rayapudi, Kondamarajupalem of Thullur Mandal, Undavalli, Penumaka, Part of Tadepalli municipality (Nulakapet, Dolas Nagar etc.,) of Tadepalli Mandal and Krishnayapalem, Nidamarru, Kuragallu including Hamlet Villages of Nerukonda and Nowluru including Hamlet Villages of Yerrabalem & Bethapudi of Mangalagiri Mandal for purpose of Amaravathi Capital City Development Project.

#### 4.2. Total Land Requirement

The Government of Andhra Pradesh has decided to establish a green field capital city as a liveable, environmentally sustainable and people's capital. For this purpose, the location of the capital was identified between Vijayawada and Guntur cities on the upstream of Prakasam Barrage on the river Krishna. Total required land for this project in this village is **Ac. 3243.5480** cents out of which **Ac. 3109.0230** have been acquired under the land poling scheme and remaining **Ac. 134.5250** have to be acquired from the land owners of this village under LA R&R Act, 2013. Out of **153** respondents only **38** respondents are holding 8.36 and above acres and the rest have not given their details.

#### 4.3. Quantity of Land Proposed to be acquired

Total **134.5250** acres of land is proposed to be acquired in Thullur-1&2 village of Thullur Mandal, Guntur District as mentioned below:

# 4.4. Type of Land

Following section presents type of land required for proposed Amaravathi-AP Capital City project in Thullur-1&2 villages of Thullur Mandal, Guntur District. The proposed project stretch will involve acquisition of about **134.5250 acres** of land in which majority of the land is being owned by private owners (Table 4.2).

**Table 4.2 Project Area: Loss of Land** 

Sl. No	Village	Mandal	Number of PAFS	Remarks
1	Thullur-1&2	Thullur	153	Jareebu, Dry, and Agriculture Lands

EPTRI, Hyderabad Page 38 of 74

#### 5. SOCIO ECONOMIC AND CULTURAL PROFILE OF THULLUR-1&2 VILLAGES

#### 5.0. General

This chapter describes about the socio-economic profile of the project area and the project affected persons. This chapter specifically analyzes the impacts on land and other immovable assets based on detailed Survey done. Based on the impact on land and structures, a sample Survey was carried out; and the results of the Survey established socio-economic status of PAFs. The survey has indicated the nature and characteristics of R&R interventions required to mitigate negative impacts of the proposed project.

#### 5.1. The Project area

Guntur District is located in Andhra Pradesh along the east coast of Bay of Bengal. The district has a coastline of around 100 kilometres. Guntur City is the largest city in the district and administrative centre of Guntur District. The district is a major centre for learning. Telugu and Urdu are the main languages spoken in this district. The project area is lies between 15<sup>0</sup>18'0" -16°50'0" of North Latitude and 15°18'0" -16°50'0" of East Longitudes.

# 5.1.1. Land use Pattern:

The existing land use of the site is consisting of - agriculture, land for grazing, fruit and flower plantations, village settlements and village ponds etc.

General Land Use Pattern of the State indicated that the project area has current fallows (8%) followed by land put to non-agricultural use (30%), forest (31%) and other fallow (8%). The principal crops of the district are paddy, cotton, Maize, black gram and red gram.

# **Socio Economic Characteristics of Project Area:**

In 2011, Guntur had population of 48,87,813 of which male and female were 24,40,521 and 24,47,292 respectively. With regard to the sex ratio it is 1003 per 1000 males, literacy rate is 67.40. The table 5.1 shows the secondary data of the affected villages.

EPTRI, Hyderabad Page 39 of 74

Table 5.1 Demographic Condition of the Project Area

	SOCIAL AND DEMOGRAPHICAL						
	Li	teracy (%	<b>(</b> 0)	No. of House	SC (9/)		
	Total	Male	Female	Holds	SC (%)		
Andhra Pradesh State	73.0	80.9	64.6	-	17.1		
Guntur district	67.40	74.79	60.09	1296609	19.6		
Thullur	60.24	66.67	53.91	15505	36.55		
Thullur-1&2	63.19	35.08	28.11	2280	30.29		

Source: Census 2011

# 5.2. Project Impacts

Following sections illustrate analysis of the results of socio-economic and sample surveys. The analysis describes about the social, demographic and economic profile of PAPs to understand the type of R&R intervention measures required to enhance living condition of PAPs. The socio-economic study has been done based on education, occupation, demographic profile and other social characteristics of the PAPs.

(i) Impact on Agriculture Land: Table 5.2 presents impact on affected agriculture land. Out of **134.5250** acres of 153 peoples who holds agriculture land and out of which 109 are having 0 to 1 acre, 25 people have 1.01 to 2.5 acres, and 48 person is having 2.51 to 5 acres of agricultural land respectively.

Table 5.2: Project area Agricultural Land acquired

Village			Total		
Village	0 to 1 Acre	0 to 1 Acre		Total	
Thullum 1 8-2	109	25	18	153	
Thullur-1&2	(22.7625 ac)	(43.2025 ac)	(74.9250 ac)	(134.5250 ac)	

**(ii) Impact on People:** The estimated numbers of families being affected are about **153 PAF's.** The impact on livelihood could be mitigated with the intervention of Rehabilitation measures as per the LAR&R Act 2013. Further explorative technique has been used to assess social impacts on families, understand social and demographic profile of the project affected families. As it can be seen from Table 5.3 that there are 153 PAPs from 38 estimated PAFs who responded the survey with average family size of 4 respectively.

Table 5.3: Project affected families (PAFs) and Project affected persons (PAPs)

Village	Land (PAFs)	PAPs	Average family size
Thullur-1&2	38	153	4

#### 5.3. Social Profile of the PAPs

## 5.3.1. Age wise Distribution:

Age of stakeholders gives the SIA study good idea about area and its people because if the number of older people is high in specific area then there can be different problems and

EPTRI, Hyderabad Page 40 of 74

attitudes of that respective area. If the number of younger people is high then social problems, attitudes can be different like unemployment. So the understanding of the age pattern is very important and age data of all the project affected persons (PAPs) is given below in table 5.4.

Table 5.4 Age limit of PAPs

Age	Male	%	Female	%	<b>Grand Total</b>	Total %
0-10	10	6.54	5	3.27	15	9.80
Nov-20	10	6.54	12	7.84	22	14.38
21-30	13	8.50	16	10.46	29	18.95
31-40	15	9.80	9	5.88	24	15.69
41-50	13	8.50	15	9.80	28	18.30
above 51	19	12.42	16	10.46	35	22.88
Total	80	52.29	73	47.71	153	100.00

Source: Household Survey

Above mentioned table it is shown that majority of the stakeholders in this study is from the age limit of 51 and above. They contribute 22.88% of the total. 9.80% stakeholders are from the age limit of 0-10 years, 14.38% are from the age of 11-20 years. 18.95% stakeholders are 21-30, 15.69% stakeholders are 31-40, and 18.30% stakeholders are 41-50 age limits respectively. This table represents that the stakeholders whose land is proposed to be acquired for the project are mature people and majorly is between 31-51 years.

5.3.2. Family Structure

The adjacent figure 8 shows that the nuclear families are dominating in the project area with an incidence of 79% while the remaining 21% are observed to be living in joint families in the Thullur-1&2 villages.

Figure 8 Family Structure

Family Structure

21%

Nuclear

# 5.3.3. Religious Category of the PAFs

It was observed that the 38 PAFs are divided into three major religious communities, with a numerical predominance of the Hindu religion. Out of the total 38 PAFs, 100% are belonging to Hindu religion in Thullur-1&2, as it is shown in Figure 9.

Figure 9 Religious Division

EPTRI, Hyderabad Page 41 of 74

## **5.3.4.** Social Category of Project Affected Families (PAF)

The social division of the households in the project, the figure show that higher cast communities constitutes (29 PAFs out of 38) 76% per cent of the total households are forward caste and there is 24% (9 PAF's out of 38) backward caste, and there is no accounts of schedule caste or schedule tribes in the project as per the survey in Thullur-1&2 village as it is shown in the figure 10.

#### 5.3.5. Marital Status of PAPs

The analysis on marital status of the PAPs indicates that around 65.36% of people are married, while 33.99% per cent are unmarried and 0.65% is divorced people are living in the project area of the total population. There are no divorced persons reported in the project area. The marital status of PAPs is depicted in the following Table 5.7.

**Table – 5.7 Marital Statuses of PAPs** 

Marital Status	Male	%	Female	%	Total %
Married	49	32.026	51	33.33	65.36
Unmarried	31	20.261	21	13.73	33.99
Divorced	0	0	1	0.654	0.65
Total	80	52.288	73	47.71	100.00

Source: Primary Source

#### 5.3.6. Educational Status of PAPs

Among the PAPs, including the non-school going children below the age of 5 years, 21.56

per cent are illiterate and 78.44 per cent are literate of total persons. From among the total PAPs, 15.03 percent of the population had attained education up to standard whereas 23.53 percent of the population claimed of having education up to high school level. Only 13.07 per cent had completed Intermediate level whereas 18.95 percent of the PAPs are graduates. When it comes to higher educational degrees like Post Graduation or like professional

EPTRI, Hyderabad Page 42 of 74

courses have only 7.84 percent of educations. The educational status of the PAPs is enumerated in the following Table 5.8, and in figure 5.8.

Table -5.8: Educational Status of the PAPs

Education	Male	Female	Total	%
Illiterates	15	18	33	21.57
0 to 5th	9	14	23	15.03
6th to 10th	21	15	36	23.53
Inter	12	8	20	13.07
Degree	18	11	29	18.95
PG	5	7	12	7.84
Total	80	73	153	100.00

Source: Primary source

# 5.3.7. Living Conditions and Infrastructure Facilities

Housing Status

- ✓ Residential dwellings in study area were generally classified into Katcha (Huts), Semi Pucca and Pucca (Concrete house) house.
- ✓ Katcha (huts) thatched structures, walls constructed from un-burnt bricks or mud, floor material is primarily mud and dung.
- ✓ Pucca house (Concrete house) cemented walls built with cement bricks/ burnt bricks, with RCC roof, classified into two categories as independent house or apartment in the study area.

Independent house - a house registered in the name of the person who owns the house. The owner is the only one with the property rights unless it is assigned to another party in writing.

Apartment - means a part of any property, intended for residential use, including one or more rooms or enclosed spaces located on one or more floors or any part or parts thereof, in a multi-storied building registered in the name of individual flat owner.

✓ Semi Pucca house - cemented walls built with cement bricks/ burnt bricks, without RCC roof

It is important for the policy makers, development practitioners, government, non-government as well as donor agencies to understand the living conditions of people, whose uplift men they work for through various programs and policies. In the present context of Amaravathi -AP Capital city project it is also apt to understand the living conditions of the PAFs. When inquired about the quality of the housing in the Project area, it was revealed that almost families out of 38 PAFs, 0% are lives in *Katcha* house, followed by 86.84% are in *Pucca* house, 13.16% are in *Semi-Pucca* houses and 0% is in *open places*. The quality of housing is shown in the table 5.9 & figure-11.

EPTRI, Hyderabad Page 43 of 74

Table – 5.9: Living Conditions of PAFs

<b>Living Condition</b>	Frequency	Percentage
Katcha	0	0.00
Pucca	33	86.84
Semi-Pucca	5	13.16
Total	38	100.00

Source: Field Survey

# **5.3.8.** Number of Dwelling Rooms

According to the survey findings most of the households have separate dwelling rooms. It was observed that 1 is in single room, 29 have two room houses, 2 of the households have three rooms, 5 of the households have four rooms, and 1 of households are having above five rooms, it has shown in the study area in Figure-12.

#### **5.3.9. Source of Water Facilities**

Besides understanding the living conditions of the respondents in terms of an investigation of their housing conditions, an attempt was also made to assess the civic amenities in their houses. The survey results on water sources used by communities in the study area are shown in the Table-5.11. 92% of the respondents attained their water from house tap, 2% of people are having own well water, 5% are using Panchayat water connection along with filter/municipal water for drinking purposes as it is shown in the figure-13.

Figure 13 Source of Water

90% families are having clean drinking water like mineral water, purifiers etc. in order not to get any waterborne diseases. But rest need to be taken care.

EPTRI, Hyderabad Page 44 of 74

Table-5 11	Source of water	facilities
1 41710-241	DUNITE OF WALE	Identities

Source of Drinking Water	No's	%
House Tap	35	92.11
Bore well	1	2.63
Panchayat tap	2	5.26
Pipe	0	-
Total	38	100.00

#### 5.3.10. Sanitation

Sanitary conditions of the villages are relatively better; 38 respondents out of 38 PAF's (100%) are having toilets at their premises, 0% is using open defectaion and 0% is using community toilets. It shows that the people of Thullur-1&2 are aware of the personal hygiene and disease prevents, as shown in Figure-14.

# 5.3.11. Household Energy Sources

About 3% of people use Firewood, 97% of people use LPG gas for cooking, 0% of PAF's are using LPG+Wood and 0% of PAF's are using Kerosene. The report shows that people are 97% of the PAF's are developed in infrastructure and household things, as shown in Figure-15.

Figure 15 Energy Sources (Fuel)

#### 5.4. Economic Activity and Livelihood Pattern

The working population in the study area includes cultivators, agricultural labourers, and household industry workers, petty vendor, service sector and unorganized industrial sector. All workers i.e., those who have been engaged in some economic activity during the last year, who are not cultivators or agricultural labourers or in household industry are other workers. Other workers include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social works, all Government & private sector employs, priests, entertainment artists etc.

Subsistence agriculture is an important contributor to the livelihoods. Amongst the surveyed population, 0% are agriculturist, 30.71% are farmers, 7.84% are private service, 24.18% are house wives, 0.65% business, 1.30% are Govt. job holders, 27.45% are students, and 7.84% are dependents are living in this project area, respectively (table 5.14 & figure 16).

EPTRI, Hyderabad Page 45 of 74

**Table-5.14: Occupational Status** 

Occupations	No's	%
Farmers	47	30.71
Pvt. Job	12	7.84
Govt. Job	2	1.30
Business	1	0.65
House Wives	37	24.18
Students	42	27.45
Dependents	12	7.84
Total	153	100

Source: Field Survey

## 5.4.1. Agricultural Scenario

Almost all the PAFs in the affected village depend on agriculture for their livelihood. Most of the PAFs are having *rythwari patta* land. The average agricultural holding size of PAFs is about **1.2800 acres**. A range of crops cultivated are banana, lemon, paddy and maize etc., Among the total land holders, 35% are marginal farmers and 6% small farmers (Table5.15).

**Table-5.15 Ownership of agricultural Fields** 

Category of farmer	Farmers	Percentages	Land in Acres
0 to 1 acre	1	1.25	1.2800
Total	1	1.25	1.2800

Besides land, both in absolute acreage and quality, the possession of livestock and other items like plough, tractor, etc significantly affects the agricultural outcome. Only 60 % of them did possess costly agricultural related items like tractors, sprayers and plough etc. and remaining respondents are having accesses to these services through payment/rental basis.

# 5.4.2. Livestock Farming

Livestock husbandry is an important component of economic activities in the study area, particularly in the rural settlements. Livestock owned by households includes cattle and goats are in less proportion. Still cattle are an integral part of cropping activities in the study area. Livestock provides meat, milk and as a cash income. But they did not provide any information regarding the livestock.

Even though animal husbandry is the major source of sustenance especially in rural villages a number of constraints reduce the dependency on the livestock husbandry in the study area in recent times. These include:

- Rapid urbanization and consequent engulfing of agricultural and grazing lands into urban sprawl
- Decreased dependency on agriculture and allied activities as primary livelihood

EPTRI, Hyderabad Page 46 of 74

• Animal husbandry is derelict due to the ageing of the population caused by the drift of young people and those in their prime of life to the cities.

Livestock ownership details obtained in the study area during the socio economic survey for **38** households reveals 45% of the PAFs depends on livestock.

# 5.4.3. Income and Expenditure

An assessment was made to understand the economic status of the respondents by understanding their income and expenditure pattern for the past one year. The assessment of income and expenditure of the respondents in the study area have been categorized into seven groups taking into account 2013-2014 as the base year. The income groups are (i) less than Rs. <25,000, (ii) Rs. 25,001-50,000, (iii) Rs. 50,001-75,000, (iv) Rs 75,001-1 lakh (v) 1 lakh - 2 lakhs (vi) 2 lakhs - 5 lakhs (vii) Above 5 lakhs. Respondents were asked to indicate their households' income sources. Sources of income and amounts show huge disparity. They were also asked to give a broad indication of their household's average monthly income. The socio—economic condition of the respondents in the project area is in Figure-17.

**Figure: 17 Annual Incomes** 

It was observed that out of the total **38** respondents, 10% of each are in the income group between <25000, and 45% of each family income between 25000-50000 per annum and 21% of each family income is between 50001-1 lakh, 16% of each family income between 1 lakh to 2 lakhs per annum, 8% of each family having income of 2-5 above lakhs respectively. It shows that people of Thullur-1&2 are still under poverty.

## 5.4.4. Expenditure

The data on annual income of rural households, whose primary occupation is mostly agriculture, labour work; self-employment (auto drivers, Tailoring, Mechanic etc.) in terms of a fixed figure may not always reveal the actual situation. Since these households do not have a fixed source of income like salary every month, it often becomes difficult on the part of the

EPTRI, Hyderabad Page 47 of 74

respondents to exactly estimate their annual household income. In such a situation, the researcher has to depend upon the memory of the respondents. To overcome such shortcomings, an attempt to assess their pattern of spending on essential items like food, cloth, health and education was made.

It was observed (per year) that the average household records an early expenditure of approximately Rs. 20,000/- Food, and Medical expenses are the most common, representing all of the most frequent expenditure (figure-18).

Figure 18: Annual Expenditure of PAFs

#### 5.4.5. Loan Sources

From adjacent figure 19, about 0 (38) of the PAFs have loans, 0 (38) of the PAF's have no loans. And rest 38 (38) of household has not provided information. The main reason behind taking loans is for investment in agriculture sector. All loans are taken keeping land or other assets as mortgage.

Figure 19 Loan Details

#### 5.4.6. Consumption Standard

For inferring the consumption standard of the sample households, their possession of various consumer durables was recorded in the survey. Considering the movable assets, it was observed that 5.26% of the households possess that they have two wheelers and bicycles and 5.26% of the households are having 4 wheelers vehicles as shown in Table-5.17.

EPTRI, Hyderabad Page 48 of 74

**Table-5.17 Possession of Movable Assets** 

Consumption standard		
Items	No's	%
Scooter / motor cycle	1	2.63
4 wheeler / Car	2	5.26
Bicycle	1	2.63
Total	19	31.67

Figure 20 Movable Assets

In the other group of consumer durables consisting of television, refrigerator, fan, mobile phone, it was observed that almost all the household possess fan, television and mobiles as their minimum requirement, 60% of sample households having refrigerators (Figure-20). This indicates chances of having access to information and connectivity with the outside village for all of the respondents. It was observed that some of respondents having tractors for self-employment purposes.

#### **5.4.7. Savings**

As shown in Figure-21 the sample households enumerated in the present socio economic survey, only 8% of households are possess savings, 39% are not having any savings by their own work as maximum are agriculturists and farmers who invest in their land for different types of crops and 53% of the PAF's are not provide their details respectively.

Figure 21 Savings of PAFs

# **5.4.8.** Transport Facilities

Transport system comprises several modes including Road, Rail, and Waterways etc. When it was enquired about the transport facilities in the villages it was observed that all the surveyed villages have roads along with the RTC bus facilities and the villagers are also using autos and other sources for their conveyance purpose.

EPTRI, Hyderabad Page 49 of 74

#### 5.4.9. Health Status

Health status of the respondents are studied in the project area, it was revealed large that numbers of respondents are affected by seasonal diseases like cold, cough, weakness, joint pains etc. The people are suffering from major diseases like heart problem, Diabetic, Thyroid, Blood Pressure and asthma as shown in Figure-22.

Figure 22 Health Statuses of PAFs

Figure 23 Morbidity Pattern

Issues

**Problems** 

# 5.4.10. Morbidity Pattern

Morbidity pattern mainly focuses on the nature of death and has been classified into two different categories i.e., natural and unnatural death. The Morbidity pattern was presented in the figure-23.

# **5.5. Project Awareness:**

The main aim of this study is to find out the level of awareness among the respondents about the proposed Amaravathi–AP Capital City project in the study area.

It was observed that all of the respondents were aware of the project in 2014 and all of the respondents known the project through media, project authorities and meetings etc.

## **5.6. Project Perception of the PAFs:**

The project perception embraces opinions of the respondents about the proposed project. This comprised the perceived advantages & disadvantages and views of the respondents in the project area. 8% (3 out of 38) of the respondents who disapproved the Project, most were concerned about its impact on livelihoods and environment. Indirect negative impacts of the project on health were also identified in the affected village. These impacts will ultimately disrupt sustainable livelihoods of

Figure 24 Project Perception

EPTRI, Hyderabad Page 50 of 74

the local people. 13% (5 out of 38) of the respondents in favour of the project opined that more job opportunities will be created for the local population which would result in sustainable livelihoods and also helps in improving economic condition during construction and operation period which would ultimately result in skill up gradation, ancillary and auxiliary business opportunities, better infrastructure and transportation facilities and overall wellbeing of the area. 79% of the PAF's are not having much idea of the project benefits and they cannot say how it could help them (Figure-24).

However, PAPs had other concerns also in the project area which relate to increase in prices, noise and dust, individual and family safety and disruption in village harmony

EPTRI, Hyderabad Page 51 of 74

#### 6. LEGAL POLICIES AND FRAME WORK

# 6.0. Regulatory Framework

The Article 48-A of the Constitution of India states that the State shall endeavour to protect and improve the environment to safeguard the forest and wildlife of the country. At the same time, it shall be the fundamental duty of every citizen of India under Article 51-A (g) of the Constitution of India, to protect and improve the natural environment including forests, lakes, rivers and wild life.

Over the years, the Government of India has framed several policies and promulgated number of Acts, Rules and Notifications aimed at management and protection of the environment. As a result, our country now has a fairly complex body of environmental legislation aimed at ensuring that the development process meets the overall objective of promoting sustainability in the long run.

The present chapter focuses on the rules and regulations pertaining to and applicable for the proposed project. The regulatory framework has been studied covering the applicability and where possible, the project specific implications of relevant legislation.

# 6.1. Environmental policies

Several environmental policy statements have been formulated in the last few decades as a part of the Government's approach to integrate environmental and developmental aspects of planning. The policies reflect a gradual shift in emphasis from pollution abatement and control to proactive and voluntary approaches for pollution prevention in keeping with global paradigm shifts and trends in environment management.

Following are some of the key policies that have been laid down by the Central Government:

- National Forest Policy, 1988;
- National Conservation Strategy and Policy Statement on Environment and Development, 1992;
- Policy Statement on Abatement of Pollution, 1992.

Despite these policy documents a need for a comprehensive policy statement it had been evident for some time in order to infuse a common approach to the various sector and cross-sectoral approaches to environmental management. As a result, a National Environment Policy (NEP, 2006) has been drawn up as a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The National Environment Policy is intended to be a guide to action: in regulatory reform, programs and projects for environmental conservation; and review and enactment of legislation, by agencies of the Central, State, and Local Governments.

EPTRI, Hyderabad Page 52 of 74

## 6.2. Legal Provisions for Environment for Proposed Development

The proposed project would be governed by various Acts, Rules and regulations enforced by Ministry of Environment and Forests and Climate Change (MoEF&CC) at the Central level and other regulatory agencies at the State and local levels. Various environmental standards, specifications and guidelines of Central Pollution Control Board (CPCB) and state level agencies will also be applicable.

The various environmental regulations as applicable to the project are briefly described in the following sections below:

# **Clearance Required**

## Environmental Impact Assessment Notification, 2006

Projects or activities listed in the Schedule to this notification shall require prior environmental clearance from the Expert Appraisal Committee (EAC) of Ministry of Environment and Forests & Climate Change for developmental activities falling under Category 'A' of the Schedule and from the State Environmental Impact assessment Authority (SEIAA) at the State level for development activities falling under Category 'B' of the said schedule, before any construction work, or preparation of land by the project proponent (PP).

**Implication:** The Amaravathi City development project requires Environmental Clearance from the State Expert Appraisal Committee (SEAC) and State Environmental Impact Assessment Authority (SEIAA) of the state of Andhra Pradesh under the Category 8(b) Township and Area Development Projects as per the EIA Notification 2006. The General Condition (GC) clause as per the EIA Notification is not applicable for this project vides Amendment 22<sup>nd</sup> December (SO No-3252E) of EIA Notification 2006.

# Forest (Conservation) Rules, 2003

Every user agency, that wants to use any forest land for non-forest purposes, shall make its proposal in the appropriate form to the concerned nodal officer authorized on this behalf by the State Government, along with requisite information and documents complete in all respects, well in advance of taking up any non-forest activity on the forest land.

#### **Environmental Acts**

# The Environment (Protection) Act, 1986

The Government of India (GOI) has framed an 'Umbrella Act' called the Environment (Protection) Act, 1986 which is designed to provide a framework for the coordination of central and state authorities established under Water and Air Act. The Environment (Protection) Act, 1986 is established by the GOI to fulfil its commitment to protect and improve the human environment. It is applicable to the entire country. From time to time the central government has issued notifications under the EPA, Act 1986 for the protection of ecologically-sensitive areas or issues guidelines for matters under the EPA.

It empowers the Central Government to take necessary measures for the purpose of protecting and improving environmental quality and preventing, controlling and abating environmental pollution. Important powers of the Central Government include laying down

EPTRI, Hyderabad Page 53 of 74

standards for environmental quality and emission/ discharge of environmental pollution from various sources. These powers define procedures and establish safeguards for handling of hazardous substances, and establish rules to regulate environmental pollution.

Separate Noise regulations for DG sets of various capacities were introduced in 2002 vide notification of MoEF&CC of 17th May 2002 under the Environmental (Protection) Second Amendment Rules 2002. This requires that all DG sets should be provided with exhaust muffler with insertion loss of minimum 25 dB (A). All DG sets manufactured on or after 1 July 2003 shall comply with these regulations.

**Implication:** All the applicable rules and regulations shall be followed by AP-CRDA&CA provided in the Act towards planning of activities in the project area. For all the activities to be undertaken in Amaravathi City development project; the maximum allowable limits of concentration of various environmental pollutants will be followed as per the standards of quality of air, water, or soil for various areas and purposes.

# The Water (Prevention & Control of Pollution) Act, 1974 (Water Act)

The purpose of this act is to prevent and control water pollution and to maintain or restore the quality of water. In order to achieve its goals this act empowers the CPCB and SPCB and defines their functions.

This Act requires any new development, industries, local bodies and agencies engaged in any trade to obtain consent from the SPCB for discharge of effluent into water bodies. The SPCBs have the authority to enforce this Act, if any projects discharge effluent in water bodies, land or sea.

The Environment (Protection) Rules under the EPA also lay down specific standards for quality of water effluents to be discharged into different type of water bodies (sewers, surface water bodies like lakes and rivers, marine discharge).

**Implication:** For any activities falling in categories as per Andhra Pradesh Pollution Control Board (APPCB), Consent to Establish (CTE) will be obtained before starting the construction and Consent to Operate (CTO) before commissioning the activity.

#### The Air (Prevention and Control of Pollution) Act, 1981

The purpose of this act is to prevent, and control air pollution including noise pollution and preserve air quality. In order to achieve its goals, this act empowers the CPCB and SPCB and defines their functions. An important function of the CPCB is to establish Environmental standards.

This Act requires industries, local bodies and agencies engaged in any trade to obtain consent from the SPCB prior to releasing emissions into air. The SPCBs have the authority to enforce this Act.

**Implication:** For any activities falling under categories as per Andhra Pradesh Pollution Control Board (APPCB), Consent to Establish (CTE) will be obtained before starting the construction and Consent to Operate (CTO) before commissioning the activity.

EPTRI, Hyderabad Page 54 of 74

# The Municipal Solid Wastes (Management and Handling) Rules, 2000 and Draft Rules 2015

As per this rule, every municipal authority shall, within the limits of the municipality, be responsible for the implementation of the provisions of these rules, and for any infrastructure development for collection, storage, segregation, transportation, processing and disposal of municipal solid wastes.

The Solid waste management for the proposed project will be as per the; Municipal Solid Wastes (Management and Handling) Rules, 2000 and draft Rules 2015, Ministry of Environment and Forests, The Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008, E waste (Management and Handling) Rule, 2011, Bio-Medical Waste (Management and Handling) Rules, 1998 and its amendments thereof and Andhra Pradesh Pollution Control Board (APPCB), Andhra Pradesh Guidelines. Recent technologies for Waste to Energy (WtE) conversion will also be used in the proposed development.

# The Hazardous Wastes (Handling and Management) Rules, 1989 and subsequent amendments

These rules were notified on 28<sup>th</sup> July 1989, under the Environment Protection Act, 1986. They aim at controlling the generation, collection, treatment, transportation, and disposal of hazardous wastes. These rules have been amended subsequently in, 2000, 2003 and 2009. Hazardous waste generated during construction & operation phase are covered under the ambit of this act. The industries are required to obtain prior authorization from the SPCB for handling, treatment, storage and disposal of Hazardous Wastes.

# E-waste (Management and Handling) Rule, 2011

This rules covers producer, consumer or bulk handling involved in the manufacture, sale purchase and processing of electrical and electronic equipment or components as specified in this rule. Environmentally sound management of e-waste means taking all steps required to ensure e-waste is managed in a manner which shall protect health and environment against any adverse effects, which may result from hazardous substance contained in such waste.

#### Bio-Medical Waste (Management and Handling) Rules, 1998, amendment 2003

As per this rule it shall be the duty of every occupier of an institution generating bio-medical waste which includes a hospital, nursing home, clinic, dispensary, veterinary institution, animal house, pathological laboratory, blood bank by whatever name called to take all steps to ensure that such waste is handled without any adverse effect to human health and the environment. Every occupier, where required, shall set up in accordance with the time-schedule in Schedule VI, requisite bio-medical waste treatment facilities like incinerator, autoclave, microwave system for the treatment of waste or ensure requisite treatment of waste at a common waste treatment facility or any other waste treatment facility. This rule specifies guidelines for segregation, packaging, transportation, storage, treatment and disposal of biomedical waste.

EPTRI, Hyderabad Page 55 of 74

**Implication:** Facilities for treatment and disposal of biomedical waste already exist at Guntur and Vijayawada. These facilities will be utilized for the proposed project. Augmentation of the facilities will be done as and when required with respect of the prevailing norms. These two facilities or any new facility that is proposed shall have to comply with the provisions of these Rules.

# Fly Ash Notification, 1999, amendment 2009

The MoEF&CC, GoI has issued a Notification regarding the utilization of fly ash/ bottom ash generated from coal/ lignite based thermal power plant, with an intention to protect the environment, conserve top soil and prevent the dumping and disposal of fly ash discharged from coal or lignite based thermal power plants. As per this notification, every construction agency engaged in the construction of buildings within a radius of hundred kilometres from a coal or lignite based thermal power plant shall use only fly ash based products for construction, such as: cement or concrete, fly ash bricks or blocks or tiles or clay fly ash bricks, blocks or tiles or cement fly ash bricks or blocks or similar products or a combination or aggregate of them, in every construction project.

**Implication:** In view of the existing thermal power plants in vicinity of the proposed development, Proponent and other stakeholders will follow this notification and will use fly ash based construction material as indicated in this notification.

# Ancient Monuments and Archaeological Sites and Remains Act 1958 and Ancient Monuments and Archaeological Sites and Remains Rules, 1959

This Act provides for the preservation of ancient and historical monuments and archaeological sites and remains of national importance and for the regulation of archaeological excavations and for the protection of sculptures, carvings and other like objects. According to this Act, areas within the radii of 100m and 300m from the

"Protected property" are designated as "protected areas" and "controlled areas" respectively. No development activity (including building, mining, excavating, blasting) is permitted in the "protected areas". Development activities likely to damage the protected property are not permitted in the "controlled areas" without prior permission from the Archaeological Survey of India (ASI) if the site/remains/ monuments are protected by ASI or the State Directorate of Archaeology.

**Implication:** Famous Undavalli caves an archeologically important site falls within the project boundary. The proponent will follow respective regulations in this regard.

#### **National and International Institutional Framework**

India's environmental regulatory framework is based on a system of shared central government/ state pollution control administration. Since the passage of the Environment Act of 1986, the enforcement and oversight role of the central government, and particularly of Ministry of Environment & Forests & Climate Change, has been strengthened considerably. At the national level, the Central Pollution Control Board administers air and water regulatory efforts. This board is responsible for coordination of activities and guidance in formulation of standard for its state counterparts. The State Pollution Control Boards are

EPTRI, Hyderabad Page 56 of 74

responsible for enforcing the regulations. The states may adopt standards that are more restrictive than those of the CPCB, but they may not relax them.

## Ministry of Environment & Forests and Climate Change

Ministry of Environment and Forests and Climate Change (MoEF & CC) plays a pivotal role in environmental management for sustained development and for all environmental matters in the country. The major responsibilities of MoEF&CC include:

- Environmental resource conservation and protection, including environmental impact assessment of developmental projects.
- Co-ordination with the other ministries and agencies, voluntary organizations and professional bodies on environmental action plans.
- Policy-planning.
- Promotion of research and development, manpower planning and training and creation of environmental awareness.
- Liaison and coordination with international agencies involved in environmental matters.

Project proponents who are planning to undertake developmental activities have been mandated by MoEF&CC to submit Environmental Impact Statements to establish that they have planned to install adequate pollution monitoring equipment in order to comply with the relevant statutes and regulations as applicable to their scope of activities

## **Central & State Pollution Control Boards**

The Central Pollution Control Board is directly responsible for pollution control throughout the boundaries of the country. In addition to the control of air, noise and water pollution it is also responsible for ensuring effective control on disposal of hazardous wastes and storage and handling of hazardous chemicals and substances.

Additionally, with the enactment of air and water pollution laws, states have set-up their own Pollution Control Boards (SPCBs) to monitor industrial emissions and effluents and to approve the operation of new industries after careful scrutiny. The functions of the SPCBs include:

- The planning of comprehensive state programs for the prevention and control of air and water pollution and to ensure the implementation thereof;
- Inspection of control equipment, industrial plants, etc.;
- Establishing norms in consultation with the CPCB with respect to National Ambient Air Quality Standards, gaseous emission standards from industrial plants, automobiles, etc. Different emission standards may be laid down for different industrial plants, with respect to the quantity and composition of emissions into the atmosphere from such plants and the general pollution levels in the area;
- Advising the State Government on sitting of new polluting industry.

EPTRI, Hyderabad Page 57 of 74

## **Kyoto Protocol**

The emission of significant amounts of carbon dioxide and other greenhouse gases, primarily by industrialized and developed nations, has come into sharp focus in the last few decades as it may result in rising raise global temperatures and resultantly cause change in climatic patterns across the globe. To address this issue, the Kyoto Protocol further supplements and strengthens the United Nations Framework Convention on Climate Change - an international treaty on climate change under which developed countries have committed to reduce their emissions of carbon dioxide and five other greenhouse gases. The treaty was negotiated in Kyoto, Japan in December 1997, opened for signature on March 16, 1998, and closed on March 15, 1999. As of September 2005, a total of 156 countries have ratified the agreement (representing over 61% of global emissions).

India has formally accepted the treaty by ratifying on the 26th of August, 2002 and thus, the aim of APCRDA & CA will be to abide by the objectives of the protocol. APCRDA & CA will focus on the minimum emission of green-house gases like CO<sub>2</sub> and the optimal use of fuel resources in Amaravathi and environs.

#### Montreal Protocol & the Vienna Convention

Scientific concerns about damage to the ozone layer prompted governments to adopt the Vienna Convention on the Protection of the Ozone Layer in the year 1985. Then, two years later, in 1987, the Montreal Protocol was legally adopted and required industrialized countries to reduce their consumption of chemicals harming the ozone layer. As of September 2002, 183 countries have ratified the Montreal Protocol which sets out the time schedule to "freeze" and reduce consumption of ozone depleting substances (ODS). India acceded to the Montreal Protocol on 17<sup>th</sup> September 1992. India commonly produces and uses seven of the 20 substances controlled under the Montreal Protocol. These are CFC-11, CFC-12, CFC-113, Halon-1211, Halon-1301, Carbon tetrachloride and Methyl chloroform. India is presently considered to be the second largest CFC producer in the world, after China. The Government of India has entrusted the work relating to ozone layer protection and implementation of the Montreal Protocol to the Ministry of Environment and Forests (MoEF) and Climate Change which is the coordinating Ministry in India for all matters relating to the Montreal Protocol.

#### **Stockholm Convention**

The Stockholm Convention is a global treaty in response to the urgent need to protect human health and the environment from persistent organic pollutants (POPs). The Convention was adopted with the formal voted approval of delegates from 127 countries on 22 May 2001, at Stockholm in Sweden. POPs are toxic, and have the potential to injure human and other organisms even at concentrations as low as parts per billion (ppb). The 12 initial POPs referred to as 'Dirty Dozen' are aldrin, chlordane, DDT, dieldrin, endrin, heptachlor, mirex, toxaphene, polychlorinated biphenols (PCBs), hexachlorobenzene, dioxins and furans.

The proponent will thrive to ensure that the usage of such chemicals falling under the POPs category is avoided to the extent possible in any of the planned developmental activities.

EPTRI, Hyderabad Page 58 of 74

## 6.3. Social Impacts

The social impact of the construction of proposed AP Capital City project has been classified

- i.Impact during Pre- construction stage.
- ii.Impact during Construction Stage.
- iii.Impact during Operation stage.

The main aim of the Social Impact Management Plan is to ensure that the various adverse impacts are mitigated and the positive impacts are enhanced. The social impact management measures shall be implemented during the various stages of the project viz. Pre-construction stage, Construction Stage and Operational Stage. A description of the various impacts is identified during different stages of construction which is presented in Table 6.1.

<b>Pre- Construction</b>	Construction	Operation
Acquisition of	Dust pollution	Social Development
agricultural land	Noise pollution	Economic Development,
Acquisition of trees	Livelihood	Infrastructure development
Loss of livelihood	opportunities during construction	Improvement of quality of life
		Livelihood opportunities and Self-
		employment.

**Table6.1: Identification of Social Impacts at different stages** 

# **6.4. Project Impacts**

The major findings and magnitude of impacts of the proposed Amaravathi - AP Capital City are discussed in the following sections. The project impacts have been classified into different categories such as impacts on land, impacts on the affected families and their livelihood resources.

The proposed Amaravathi–AP Capital City will have a number of positive and negative impacts. In general the proposed project shall bring following positive impacts:

- Social Development
- Economic Development,
- Infrastructure development
- Improvement of quality of life
- Livelihood opportunities and self-employment.

The anticipated negative impacts on PAFs include

- Loss of landholdings
- Loss of livelihood
- Loss of labour activity

EPTRI, Hyderabad Page 59 of 74

# 6.5. Land Requirement and Acquisition

The New Capital of Andhra Pradesh is envisioned to be the pioneer Smart City of India. It aims to be World Class and at par with the standards set forth by countries such as Singapore. The new capital will be an economic powerhouse that will create a range of jobs for existing resident villagers by upgrading their skills, as well as provide high-tech and knowledge based industry jobs to be globally competitive. Housing will be at the core of its planning and will aim to provide affordable and quality homes to all its residents. It will demonstrate global quality of life standards to offer high levels of convenience to people of all ages.

The concept will capitalize on the rich heritage possessed by the region and utilize it to create a unique identity for the new capital. Sustainability and efficient management of resources will form another important pillar of this new capital. It will be supported by maintaining the clean and green character that the site currently demonstrates by mimicking these ideas in to the new capital Concept Plan.

The project shall require the acquisition/ transfer of **134.5250** Acres of land, details of land requirement are summarized below in Table 6.2.

Sl. No LAND REQUIREMENT THULLUR-1&2 3243.5480 1 Acquisition of Land (in Acres) 1.1 Land acquired under LP 3109.0230 1.2 Land to be acquired (acres) 134.5250 2 Impact on PAFs/PAPs (No.) 2.1 Total PAFs 153 2.2 Total No. of PAFs responded during the survey 38 2.3 153 Total PAPs responded families

Table 6.2 Land Requirement for the Project in the village

Based on the socio- economic survey

## **6.6. Impact on Families**

All the 153 PAFs are landowners under the proposed acquisition under LA Act.

# 6.7. Loss of livelihood

Total number of land owners in the project area referred to as Project Affected Families are 153. Most of the people (landowner as well as landless) of the area are dependent on agriculture for their livelihood, and there is permanent loss of current livelihood for almost the entire population. However, due to the provision of giving land in the development to the people losing land- will act as source of livelihood to the landowners on long term basis. The impact on livelihood could be mitigated with the intervention of Rehabilitation measures as per the RFCT LAR&R Act, 2013. Further explorative technique has been used to assess social impacts on families, understand social and demographic profile the project affected families.

EPTRI, Hyderabad Page 60 of 74

In view of social impacts, rehabilitation of the PAFs has been proposed. During site social survey, choice and desire of affected people have also been collected through survey questionnaires. Mitigation measure of the adverse impacts shall be following:

- Payment of compensation for lost asset at replacement cost;
- Preference to the land losers in work during project construction period.
- Provide necessary skill improvement training to affected people to make them employable in project operation phase.

EPTRI, Hyderabad Page 61 of 74

#### 7. COST AND BENEFIT ANALYSIS

#### 7.0. Introduction

The Andhra Pradesh Reorganization Act 2014 (Central Act 6 of 2014), came into force on 2<sup>nd</sup> June, 2014, provided for the reorganization of the existing state of Andhra Pradesh. One of the most critical priorities for the new state is the formation of the New Capital city, which is very important from the perspective of economic development, cultural integrity and administrative functioning.

The Government of Andhra Pradesh has decided to establish a green field capital city as a liveable, environmentally sustainable and people's capital. For this purpose, the location of the capital was identified between Vijayawada and Guntur cities on the upstream of Prakasam Barrage on the river Krishna.

The land required for the new Amaravathi-AP Capital City Development Project with an area of 38049.48acres, which is covering a current population of 102401 in 24 revenue villages and part of Tadepalli Municipality covered by 26 LPS Units (As per Primary Census Abstract Tables Census 2011).

The proposed capital city is being developed with 'state-of-the-art' infrastructure including world class roads, water supply facilities, administrative and institutional complexes, drainage, sanitation, Solid Waste Management (SWM) facilities, river front development etc, among others.

# 7.1. Assessment of Public Purpose

One of the objectives of the Social Impact Assessment study is to examine whether the proposed project is a public purpose project? The proposed land acquisition for construction of Amaravathi-AP Capital City Development Project is required for the following reasons.

The New capital comes under the villages Ananthavaram, Nekkallu, Thullur, Pitchikalapalem, Dondapadu, Borupalem, Abbarajupalem, Rayapudi, Nelapadu, Sakhamur, Inavolu, Velagapudi, Lingayapalem, Uddandarayunipalem, Malkapuram, Mandadam, Venkatapalem, Penumaka, Kuragallu, Krishnayapalem, Nidamarru and Navuluru.It falls under the list of projects classified in section 2 (*I*).(a to f) i.e. government acquires land for its own use, hold and control, including for public sector undertakings and for public purpose according to the LAR&R Act 2013. It clearly shows that this project surely has a public purpose.

## 7.2. Benefits from the Project

Though, it is very difficult to quantify actual cost of social impact based on severity of land acquisition. However efforts were made to minimize negative impacts through intervention of R&R measures. However, the project will entail a multitude of benefits to the entire area. The project will have following benefits for the people:

EPTRI, Hyderabad Page 62 of 74

Social costs are calculated by comparing project benefits and negative impacts, from construction of Amaravathi–A P Capital City in Thullur-1&2 villages. The cost for Ac. 134.5250 Cents is approx. Rs. 12.68 crores for agriculture land in Thullur-1&2 villages.

Positive and negative aspects of the project have been discussed in detail in the following Table no: 7.1

SI. **Positive Impact Negative Impact** Remarks No Enhanced cost of land Loss of Agriculture After careful 1 Land per acre examination of 2 Loss of livelihood Social Development various parameters Infrastructure of cost and benefit 3 Loss of employment development (positive and 4 Economic development Loss of labour activity negative impacts), it is found that the Improvement of quality 5 proposed project would of life benefit local Increase employment 6 Community at large. &self-employment

**Table -7.1 Comparative Analysis of Positive and Negative Impacts** 

This project will help the local people in infrastructure development, social development and will increase livelihood opportunities & self-employment sources.

# 7.3. Determination of Compensation

As per section 26 and 27 of LAR&R 2013 the collector shall adopt following criteria to assess and determine the market value of land and amount of compensation

- Market value specified in the Indian Stamp Act, 1899, for the registration of sale deeds or agreement to sell where land is situated,
- The average sale price of similar type of land situated in the nearest village or nearest vicinity,
- Factoring with 1.25
- Estimated cost of trees and structures
- 100% solarium and 12% additional market value
- R& R package as per LAR&R Act, 2013

## 7.4. Land Acquisition Cost

As mentioned in earlier section, about **134.5250 acres** of land is being acquired from the village Thullur-1&2. The cost of acquisition of land is presented in Table 7.2.

EPTRI, Hyderabad Page 63 of 74

**Table 7.2 Detailed Cost of Acquisition of Land** 

Sl. No	Village Name	Description of Item		Land Acquired (Acres)	Amount in Rupees
		1	Agriculture Land value @ Rs.4,00,000/- per acre as per SRO Tadikonda	134.5250	5,63,54,000.00
1.	Thullur-1&2	2	Multiplication factor value as per rule 28 Chapter IV of Act 30/2013 is 1.25 time of the land value (rural area)		1,40,88,500.00
		3	Tree value + Structure value		
		4	100% Solatium (1+3)		5,63,54,000.00
		5	12% addl. market value on Col.1 from date of 11(1) to passing of award		<mark></mark>
			Total (1 to 5)		12,67,96,500.00

**Table 7.3 Entitlement Matrix** 

Prescribed Item/Issue	LAR&R Act 2013
	a) Onetime payment of five lakhs rupees per
P.A.Fs in lieu of loss of livelihood	affected family who lost livelihood or
F.A.1's in fieu of loss of fivelificod	b) Annuity policy of not less than Rs 2000 * 240
	months
cattle shed/petty Shops cost	Rs.25,000/-
One time grant to Artisan / Small traders	Rs.25000/-
and certain others (PAF)	K\$.25000/-
Losing of Houses	Making or building New houses for the PAF

EPTRI, Hyderabad Page 64 of 74

#### 8. SOCIAL IMPACT MANAGEMENT PLAN

# 8.1. Approach to Mitigation

This Social Impact Management Plan (SIMP) has been prepared to mitigate negative social impacts of Amaravathi – AP Capital city project according to LAR&R 2013. The social Impact Management Plan (SIMP) consists a set of mitigation, monitoring and institutional measures to be taken during the design, construction and operational phases of the project to eliminate adverse social impacts or to reduce them to acceptable levels. The main aim of the SIMP is to ensure that the various adverse impacts are mitigated and the positive impacts are enhanced. The SIMP shall be implemented during the various stages of the project viz. preconstruction stage, construction stage and operational stage. A description of the various management measures suggested during different stages of the project is provided in following section.

<b>Pre- Construction</b>	Construction	Operation
Acquisition of agricultural	Dust pollution	Social Development
land	Noise pollution	Economic Development,
Acquisition of trees	Livelihood opportunities	Infrastructure development
Loss of livelihood	during construction	Improvement of quality of life
		Livelihood opportunities & self-employment

Table 8.1 Classification of social impacts at different stages of project cycle

## 8.2. Major Findings of SIA study

Survey has estimated about **38** project affected families and about **153** project affected persons. This Social Impact Management Plan (SIMP) of the proposed Amaravathi –AP Capital City is prepared to mitigate negative social impacts of the acquisition of **134.5250 acres** of land in Thullur-1&2 villages. The SIMP has followed The Right to Fair Compensation and Transparency in Land Acquisition and Rehabilitation and Resettlement 2013 (RFCTLAR&R 2013). It appears from the analyses and overview of the act that provisions of compensation for LA under LAR&R 2013 will be sufficient to manage social issues. Moreover to provide clarity in the provisions of the act following broad principles will be adopted under the project:

- Continued consultations with representatives of Panchayat will be the main feature of the R&R planning and implementation of the project,
- Administrator and Commissioner for Resettlement and Rehabilitation will be appointed as per provisions of LAR&R 2013 by the appropriate Government,
- The Administrator of the project will ensure preparation of R&R plan and disclosure as per provision of LAR&R 2013,
- The SIA report shall be disclosed as per Section 7 (5) of the LAR&R 2013,

EPTRI, Hyderabad Page 65 of 74

• R&R benefits will be as per provisions of second schedule of LAR&R 2013

Table 8.2 Analysis of Social Impact of Land Acquisition for Amaravathi-AP Capital City Project

Sl. No	Type of Impact	Mitigation measures
1	Loss of fertile agricultural	Compensation as per provision of
1	land	LAR&R Act 2013
2	Loss of CPR	Compensation as per provision of
2 Loss of CPR	LAR&R Act 2013	
3	Acquisition of trees	Lump- Sum compensation

Table 8.3 Analysis of Social Impact of Land Acquisition for Amaravathi – AP Capital city

Sl. No	Type of Impact	Mitigation measures
1.	Loss of Agricultural land	Compensation as per the provision of
	Loss of livelihood	LAR&R Act, 2013.
	About <b>134.5250</b> acres of	Rehabilitation assistance as per
	agricultural land is acquired	schedule II
	About <b>134.5250</b> acres of <b>153</b>	The stamp duty and other fee payable
	families will be losing their	for registration shall be borne by the
	livelihood	authority.

#### 8.3. Measures to avoid mitigate and compensate impact

# **8.3.1. Mitigation Measures**

Potential impacts due to land related impacts are attributed to loss of land, change in land use and loss of access. The impacts of the project in change in land-use are significant and irreversible; however the Master Plan has addressed the issues and all necessary mitigate measures are planned. The proposed Green and Blue plan in the Amaravathi City translates into an implementable land use plan. The plan can be summarized into the following planning strategies and typologies:

# Green & Blue lattice:

- Green grid The green and blue network primary follows the road network creating passive recreational fingers across the city. These fingers are anchored with large parks and open spaces close to the 2 reservoirs. Each finger terminates at the scenic river Krishna waterfront.
- Active, beautiful and clean waterways weave through the Amaravathi Capital city. These waterways follow the existing irrigation canals and reservoirs to form an interwoven water network.
- The plan creates a variety of interfaces between the green and blue creating different water themed public spaces such as lake parks, waterfront corridor, linear parks, etc.

EPTRI, Hyderabad Page 66 of 74

## Primary green spaces:

- Primary green spaces including large city parks, lakes, town parks, neighbourhood parks, water bodies and public plazas form the foundation of the city scale recreational network that provides recreation opportunities and improves a sense of community. These parks help in creating large public open spaces which can double up as event spaces for the larger community within the Capital city.
- Primary greens are planned along the existing canals and water bodies to serve as city's main ecological corridors. They play a dual role in flood management, and environmental conservation of the native species.

# Secondary green links

 Secondary greens weave through the townships connecting the various town and neighbourhood parks. Planned as the secondary green fingers of the city, these greens act as passive recreational spaces, interactive jogging trails and non-motorized transports corridors across the city.

# **Recreational Landscapes**

- Recreational landscapes include theme parks, golf courses, sports and recreational spaces.
- In line with the township model several sports and recreation parcels have been allocated in the town centre, and in proximity to the neighbourhood centre.
- Large city level sports facilities such as cricket stadium, golf courses and theme parks have been strategically distributed across the city.

## Water bodies

 Water bodies including rivers, canals, irrigation channels and reservoirs have been carefully protected and integrated with the green spaces as discussed in the previous section

The impacts due to loss of land and loss of access are expected to be minor with the implementation of the land pooling scheme and taking the following mitigation measures.

- Providing land pooling benefits / LA benefits to the effected
- Payment of cost for lost asset and providing rehabilitation if any displaced;
- Payment of compensation prior to taking possession of land or any physical displacement;
- Payment of transitional assistance to support economic loss;
- Dissemination of information about the acquisition and compensation calculation process;
- Establishing a grievance radical mechanism;
- Option for work during project construction period;
- Prior information to harvest the crops or compensation for loss of crop;
- Continuation of community engagement process;

EPTRI, Hyderabad Page 67 of 74

• Provision of access to local villagers to continue with their pre project movement pattern.

## **Impact on Livelihoods**

Long term livelihoods have been, or will be, impacted for those families who have surrendered their lands for the project. Most of the people (landowner as well as landless) of the area are dependent on agriculture for their livelihood, and there is permanent loss of current livelihood for almost the entire population. However, due to the provision of giving land in the development to the people losing land- will act as source of livelihood to the landowners on long term basis.

## **Mitigation Measures**

This impact is expected to be insignificant with the implementation of the following mitigation measures

- Payment of compensation for lost asset at replacement cost;
- Preference to the land losers in work during project construction period.
- Provide necessary skill improvement training to affected people to make them employable in project operation phase.

# Impact on utilities

Impacts have been assessed assuming general utilities such as power line, telephone line, water supply etc. may be affected during the construction. Therefore, the likelihood of significance of impact would be negligible.

## **Mitigation Measures**

This impact is expected to be minor and with the implementation of the following mitigation measures the potential disruption to existing utilities will be further minimized.

- Coordination with respective concerned department for utility relocation;
- Establishing replaced utilities prior to disconnecting or discontinuing the existing one;
- Providing intimation to the people in advance about any disruption to services.

## **Impact during Construction Phase**

The construction phase of the Project involves a number of sequential activities, collectively named as "spread". The area affected by the construction, laying of road, clearing of site, construction of residential, commercial and industrial units, construction of social infrastructure, construction of treatment plant, laying of sewer line, and labour camps areas etc. Based on the assessment of above activities and in consultation with the different stakeholders, the following impacts are being envisaged for the construction phase of the project.

#### **Mitigation Measures**

Potential impacts during construction period include impact due to the influx of migrants and associated health related risk to the community. These impacts are expected to be moderate

EPTRI, Hyderabad Page 68 of 74

and with the implementation of the following mitigation measures the potential impact of loss of livelihood will be further minimized.

- Engage as many locally available unskilled, semiskilled and skilled human resource as practically possible to avoid large scale in migration of labour force;
- Provision of infrastructure and amenities for migrant labour in construction camp to avoid dependence on limited local resources;
- Barriers will be provided to prevent ingress of persons into the construction site and also to protect public exposure to hazards associated with construction activities;
- Additional safety precaution while working in market and settlement areas and especially around the trenches:
- Screening, surveillance and treatment of workers, through the provision of medical facilities and, where required, immunization programs;
- Undertaking health awareness and education initiatives among workers, especially about sexually transmitted disease;
- Prevention of larval and adult propagation through sanitary improvements and elimination of breeding habitats close to human settlements in the close vicinity of construction site:
- Implementation of a vector control program;
- Avoiding collection of stagnant water;
- Educating project personnel and area residents on risks, prevention, and available treatment for vector-borne diseases;
- Promoting use of repellents, clothing, netting, and other barriers to prevent insect bites;
- Following safety guidelines for the storage, transport, and distribution of pesticides to minimize the potential for misuse, spills, and accidental human exposure; and Road safety measures.

\*\*\*\*\*

**Special Note:** The Social Impact Assessment report and Social Impact Management Plan report for the Thulluru-1&2 villages was prepared by EPTRI by conducting Grama Sabha and field survey on 13.05.2016. And Public Hearing on 22.12.2016 in the Thulluru-1&2 Villages and the same was incorporated in the final report.

#### 1. సంగ్రహ నిపేదిక – తుళ్ళూరు-1&2 గ్రామం

#### 1.0. ప్రాజెక్ట్ మరియు ప్రజా వినియోగం

జూన్ 2, 2014 న అమలులోకి వచ్చిన ఆంధ్రప్రదేశ్ పునర్విభజన చట్టం 2014 (కేంద్ర చట్టం 6 ఆఫ్ 2014) ప్రకారం అంతకుముందు ఉన్న ఆంధ్రప్రదేశ్ రాష్ట్రం పునర్విభజనకు వీలు కర్పించింది. ఆర్థిక అభివృద్ధి, సాస్కృతిక సమగ్రత మరియు పరిపాలనాపరమైన నిర్వహణ కోసం కొత్తగా ఏర్పడిన రాష్ట్రం యొక్క ప్రాధాన్యతలలో ముఖ్యమయినది ఒక కొత్త రాజధానిని ఏర్పాటు చేసుకోవడం.

నూతన రాజధాని అందరూ నివసించే విధంగా పర్యావరణపరంగా, ఎంతో అనువుగా ఉండేలా గ్రీస్ ఫీల్డ్ ప్రజారాజధానిని నిర్మించాలని ఆంధ్రప్రదేశ్ ప్రభుత్వం నిర్ణయించింది. దీనికోసమై, కృష్ణానదిపై ప్రకాశం బారేజ్ కి ఎగువన విజయవాడ మరియు గుంటూరు నగరాల మధ్య, 217.23 చ.కి.మీ విస్తీర్ణంలో, ప్రస్తుతం 24 రెవెన్యూ గ్రామాలలో 1,02,401 మంది నివసించే ఆవాస ప్రాంతం మరియు 26 ఎల్ పి ఎస్ యూనిట్ల క్రింద ఉన్న తాడేపల్లి మునిసిపారిటీ లోని భాగాలలోని ప్రాంతం రాజధానిగా గుర్తించబడింది. ఈ ప్రతిపాదిత అమరావతి రాజధాని నగరం 2050 నాటికి 3.55 మిరియన్ ప్రజలకు నివాససౌకర్యం కలిగించేలా తయారుచేయబడుతుంది.

ఈ ప్రతిపాదిత రాజధాని నగరంలో ప్రపంచస్థాయి రహదారులు, నీటి సరఫరా సౌకర్యాలు, పరిపాలనా మరియు సంస్థాగతమైన సముదాయాలు, మురుగునీటి వ్యవస్థ, పారిశుధ్యం, ఘనవ్యర్థాల యాజమాన్య సౌకర్యాలు, నదీ ముఖద్వార అభివృద్ధి, మొదలైనసౌకర్యాలు పూర్తిస్థాయి స్వదేశీ పరిజ్ఞానంతో కల్పించబడతాయి.

**దృక్కోణం**: ఆంధ్రప్రదేశ్ నూతన రాజధాని నగరం ఆకర్షణీయ నగరాల ఆలోచనకు ప్రతిరూపం. ఇది ఒక ప్రపంచస్థాయిలో, సింగపూర్ వంటిదేశాల ప్రమాణాలతో నిర్మించబడుతోంది. ఈ నూతన రాజధానిలో ప్రస్తుతం ఈ గ్రామంలో నివసిస్తున్న వారి సైపుణ్యాలను, సంపాదించే సామర్థ్యాన్ని కూడా పెంపొందించడం, ప్రపంచ స్థాయికి పోటీగా వారికి హైటెక్ పరిజ్ఞానం అందించడంతోపాటు పారిశ్రామిక విభాగం అవకాశాలు కల్పించడం మరియు అర్హులను చేయడం, తద్వారా వారి స్వయంఉపాధికై రూ. 25 లక్షల వరకు వడ్డీలేని ఋణాలందించడం ద్వారా ఆర్థిక పరంగా కూడా ఒక నూతన ఒరవడికి శ్రీకారం చుడుతుంది. రాజధానిలో గృహనిర్మాణానికి పెద్దపీట పేయడంతో పాటు నివాసముండే వారందరికీ నాణ్యమైన ఇళ్ళు అందించాలన్నది ప్రణాళికలోని ప్రథమ లక్ష్యం. అన్ని వయస్సులవారికి ప్రపంచ స్థాయిలోని నాణ్యమైన జీవనశైలీ అందించడంతో పాటు వారి జీవనప్రమాణాలు పెంపొందించే విధంగా ఈ నగరం రూపు దిద్దుకొంటుంది.

ప్రయోజనం: ఈ ప్రాజెక్ట్ నిమిత్తం అవసరమైన స్థల సేకరణ ఆం.ప్ర. రాజధాని నగర ఎల్ పి ఎస్ (ఎఫ్ & ఐ) నియమాలు, 2015 మరియు ల్యాండ్ పూలింగ్ మరియు అభివృద్ధి పథకం ఎల్ ఎ, ఆర్ & ఆర్ చట్టం, 2013 క్రింద సేకరించడం జరిగింది. ల్యాండ్ పూలింగ్ పథకం, ఆం.ప్ర. సీ ఆర్ డి ఏ చట్టం, 2014 క్రింద ప్రజా ప్రయోజనార్థమైనదని ప్రకటించబడింది. అమరావతి రాజధాని నగర నిర్మాణ అభివృద్ధి ప్రాజెక్ట్ అనేది రవాణా, ఇంధనం, నీరు మరియు పారిశుద్ధ్యం, సమాచార మరియు ఇతర సామాజిక మౌలిక వసతులతో కూడినది. అందువల్ల ఈ ప్రాజెక్ట్ ఎల్ ఎ, ఆర్ & ఆర్ చట్టం, 2013 లోని సెక్షన్ 2(1) అర్థానికి ఖచ్చితంగా సరిపోతుంది.

#### 1.1. స్థలము.

పటం 1: ఈ ప్రాజెక్ట్ భౌగోళిక స్థలాన్ని సూచించే ముఖ్యమైన ప్రణాళిక చిత్ర పటం

#### 1.2. భూసేకరణ కొలతల వివరములు

తుళ్ళూరు-1&2 గ్రామం భౌగోళిక విస్తీర్ణం ఎ. 3687.9800 సం. దీనిలో ఎ. 3243.5480 సం. భూమిని ల్యాండ్ పూలింగ్ పథకము/భూసేకరణ క్రింద సేకరించడానికి లక్ష్యంగా జరిగినది. అందులో ఎ. 3099.7580 సం. భూమిని ల్యాండ్ పూలింగ్ క్రింద సేకరించడం జరిగింది మరియు ఇప్పుడు ఎ. 143.7900 సం. భూమిని ఎల్ ఎ ఆర్ & ఆర్ చట్టం, 2013 క్రింద సేకరించవలసీ ఉంది. సేకరించవలసీన భూమి, దాని విస్తీర్ణం, సర్వే సెం. సహా వివరములు దిగువ ఇవ్వబడిన పట్టిక ఇ1 లో పొందుపరచబడినవి.

పట్టిక ఇ1: తుళ్ళూరు-1 గ్రామంలో SIA క్రింద సేకరిచవలసిన స్థలము

#### 1.3. సామాజిక ప్రభావాలు:

ప్రతిపాదిత ఆంధ్రప్రదేశ్ రాజధాని నగర అభివృద్ధి ప్రాజెక్ట్ యొక్క సామాజిక పరమైన ప్రభావాలు దిగువ తెలిపిన విధంగా వర్గీకరించబడినాయి:

- i.నిర్మాణానికి ముందరి దశలోని ప్రభావం
- ii.నిర్మాణం జరుగుతున్న దశలోని ప్రభావం
- iii.నిర్వహణా దశలోని ప్రభావం

సామాజిక ప్రభావ యాజమాన్య ప్రణాళిక యొక్క ముఖ్య ఉద్దేశ్యం ప్రతికూల ప్రభావాలను ఉపశమింపజేయడంతో పాటు, సకారాత్మక ప్రభావాలను పెంపొందించడం. సామాజిక ప్రభావ యాజమాన్య చర్యలు ప్రాజెక్ట్ అమలు జరుగుతున్న వివిధ దశలలో అంటే, నిర్మాణానికి ముందు, నిర్మాణ దశ, మరియు నిర్వహణా దశలలో అమలు చేయబడతాయి. నిర్మాణంలోని వివిధదశలలో గుర్తించబడిన ప్రభావాలు పట్టిక ఇ2 లో ఇవ్వబడినాయి.

పట్టిక ఇ 2 : వివిధ ప్రాజెక్టుల సామాజిక ప్రభావాల గుర్తింపు

నిర్మాణం ముందు	నిర్మాణం	నిర్వహణ
వ్యవసాయ భూముల సేకరణ	దుమ్ము వల్ల కాలుష్యం	సామాజిక అభివృద్ధి
చెట్ల సేకరణ	ధ్వని కాలుష్యం	ఆర్థిక అభివృద్ధి
జీవనోపాధి కోల్పోవడం	నిర్మాణ సమయంలో ఆదాయ	మౌలిక వసతుల అభివృద్ధి
-	అవకాశాలు	జీవన నాణ్యతలో అభివృద్ధి
		స్వయంఉపాధి

#### 1.4. ఉపశమన చర్యలు

స్థలపరమైన ప్రభావాలనేవి ప్రధానంగా స్థలం కోల్పోవడం, స్థలం యొక్క వినియోగంలో మార్పు, మరియు ప్రస్తుత జీవనోపాధి కోల్పోవడం. స్థల-వినియోగంలో వచ్చేమార్పుల ప్రభావాలు చాలా తీవ్రమైనవి మరియు తిరిగి మార్చలేనివి; అయితే, కాస్పెప్ట్ ప్రణాళికలో ఈ సమస్యలు మరియు వాటికి అవసరమైన ఉపశమన చర్యలు కూడా సూచించబడినాయి. రాజధాని నగర అభివృద్ధి ప్రాజెక్ట్ నుండి గ్రామస్థలం/ నివాసప్రాంతాలు

మినహాయించబడినాయి మరియు కుటుంబాలను అతి తక్కువ సంఖ్యలో తొలగించడం ద్వారా గ్రామ అభివృద్ధి ప్రణాళికలో చేర్చబడినాయి. అయితే, మాస్టర్ ప్రణాళికలో తెలిపిన గ్రామ స్థలం / నివాసస్థలంలోని అవసరాల ప్రకారం రహదారులు/ రైల్వే మార్గాల నిర్మాణానికి స్థలం సేకరించబడుతుంది. ఈ ప్రణాళికను దిగువ తెలిపిన ప్రణాళికా విధానాలు మరియు వర్దీకరణల ద్వారా వివరించవచ్చు:

#### 1.4.1. హరిత మరియు నీలి హారాలు:

- హరిత గ్రిడ్ ఆహ్లాదకరంగా ఉండేలా నగరంలో అక్కడక్కడా హరిత మరియు నీలి హారాలు రహదారుల పెంట ఏర్పాటు చేయబడతాయి. ఈ హరిత హారాలకు చివర రెండు రిజర్వాయర్లకు దగ్గరలో పెద్ద ఉద్యానవనాలు మరియు ఖాళీ స్థలాలు ఉంటాయి. ప్రతి హరితహారం చూపరులను కట్టిపడేసే కృష్ణానది ప్రవాహానికి కలుపబడుతుంది.
- అమరావతి రాజధాని నగరమంతా ఎల్లప్పుడూ ప్రవహిస్తుండే, అందమైన నీటిపాయలు పారుతూ ఉంటాయి.
   ఈ జలమార్గాలు ఇంతకుముందే ఉన్న నీటి పారుదల కాలువలు మరియు జలాశయాలలో భాగంగా ఉండి,
   అంతర్గత జలవిధానాన్ని ఏర్పరుస్తాయి.
- ఈ ప్రణాళిక వివిధ హరిత మరియు నీలి మార్గాలను అనుసంధానిస్తూ, విభిన్నమైన లేక్ పార్కులు, వాటర్ ఫ్రంట్ కారిడార్, పొడవుగా ఉండే పార్కులువంటి జల ఆధారిత ప్రజాకర్షక ప్రదేశాలను ఏర్పరచేందుకు వీలు కల్పిస్తుంది.

#### 1.4.2. ప్రాథమిక శ్రేణి హరిత ప్రదేశాలు:

- ప్రాథమిక హరిత ప్రదేశాలలో పెద్దపైన నగర ఉద్యానవనాలు, సరస్సులు, పట్టణ ఉద్యానవనాలు, పక్కపక్కన ఉండే ఉద్యానవనాలు, జలాశయాలు వంటివి నగర ప్రారంభదశనుండే ఉండటం వల్ల ఆహ్లాదకరమైన వాతావరాణాన్ని ఏర్పడేందుకు అవకాశాలు కర్పించడమే కాకుండా, ఒకరకమైన వర్గం అసేభావన పెంపొందేందుకు వీలు కలుగుతుంది. ఈ ఉద్యానవనాలు పెద్దపైన ప్రజోపయోగ బహిరంగ స్థలాలు ఏర్పడేందుకు దోహదపడటమే కాక, రాజధాని నగరంలో అతిపెద్దదైన వర్గాలకు పేడుకలు జరుపుకుసేందుకు అనువైన స్థలాలుగా కూడా రెట్టింపు అవకాశం కర్పిస్తాయి.
- ప్రాథమిక హరిత హారాలు ప్రస్తుతమున్న కాలువలు మరియు జలాశయాల పెంబడే ఏర్పాటు చేయడం వల్ల నగరంలో పర్యావరణ సమతుల్వత ఏర్పడేందుకు దోహదంచేస్తాయి.

#### 1.4.3. ద్వితీయ శ్రేణి హరితహారాలు

• ద్వితీయ శ్రేణి హరితహారాలు టౌన్ షిప్ ల ద్వారా పట్టణాలను, ఇతర ఉద్యానవనాలను కలుపుతూ పెళ్తాయి. నగరంలోని ద్వితీయ శ్రేణి హరితమార్గాలుగా నిర్ధారించబడిన ఈ హరితహారాలు, స్తబ్దుగా ఉండి ఆహ్లాదంకలిగించే ప్రదేశాలుగా, జాగింగ్ మార్గాలతో, యాంత్రికవాహనాలు లేని రవాణా సౌకర్యాలతో నగరం మొత్తం ఉంటాయి.

#### 1.4.4. ఆహ్లాదం కలిగించే పచ్చికబయళ్ళు

- ఆహ్లాదం కలిగించే పచ్చికబయళ్ళలో థీమ్ పార్కులు, గోల్ఫ్ కోర్సులు, క్రీడామైదానాలు మరియు ఇతర పదేశాలు ఉంటాయి.
- టౌన్ పిప్ మోడల్లో క్రీడ మరియు వినోదం అందించేందుకై, పట్టణ కేంద్రంలో తగిన స్థలం కేటాయించబడింది. ఇది అన్పి విధాలైన అవసరాలకు దగ్గరగా ఉంటుంది.

• క్రికెట్ స్టీడియం, గోల్ఫ్ కోర్స్ మరియు థీమ్ పార్కులు వంటి పెద్దవైన నగరస్థాయి క్రీడాసౌకర్యాలు నగరం మొత్తంలో ఒక ప్రణాళిక ప్రకారం ఏర్పాటు చేయబడినాయి.

#### 1.4.5. నీటి వనరులు

• నదులు, కాలువలు, పంటకాలువలు మరియు జలాశయాలువంటి నీటి వనరులను రక్షించడంతోపాటు, వాటిని ఇంతకుముందు వివరించినట్లు హరిత ప్రాంతాలకు అనుసంధానించబడతాయి.

#### 1.4.6. ప్రభావిత ప్రాంత ప్రజల కొరకు ఉపశమన అంశాలు:

ల్యాండ్ పూలింగ్ పథకం క్రింద అమలు పరచే విధానాలలో అధికభాగం కేవలం స్థల సేకరణకు సంబధించినదై ఉన్నందున దీనికి సంబధించిన ప్రభావాలు చాలా తక్కువగా ఉంటాయని అంచనా వేయబడింది.

- సి ఆర్ డి ఏ తో అభివృద్ధి ఒప్పందం కుదుర్చుకొన్న భూయజమానులకు ల్యాండ్ పూలింగ్ యొక్క లాభాలు అందించడం.
- గ్రామస్థలం/నివాస స్థలానికి హద్దులు నిర్దారించడం మరియు రహదారులు/ రైల్వేలు లేదా గ్రామ అభివృద్ధి అవసరాలు మినహాయించి ఆ ప్రాంతాన్ని రాజధాని నగర అభివృద్ధి ప్రాజెక్ట్ లో కలుపక పోవడం.
- స్థల సేకరణ మరియు ఏదేని స్థల మార్పిడి వల్ల నికర వ్యవసాయ ఆదాయంలో వచ్చిన నష్టానికి గాను దాన్ని స్వాధీనపరచుకొనడానికి ముందుగానే నష్టపరిహారం చెల్లించడం.
- భూమిలేని కుటుంబాలకు, వారికి జరిగిన ఆర్థికపరమైన నష్టానికి గాను 10 సంవత్సరాలపాటు పింఛను రూపంలో సెలకు రూ.2,500 చొప్పున ఆర్థిక సహాయం అందించడం.
- సేకరణ మరియు నష్టపరిహార గణనకు సంబంధించిన సమాచారాన్ని మరియు ఎల్ పి ఎస్ క్రింద వచ్చేలాభాలను అందరికీ పెల్లడించడం.
- ఫిర్యాదుల పరిష్కారానికి ఒక యంత్రాంగాన్ని ఏర్పాటు చేయడం.
- ప్రాజెక్ట్ నిర్మాణ సమయంలో పనికి సంబంధించి ఐచ్చికాలు కర్పించడం.
- కమ్యూనిటీ ఎంగేజ్ మెంట్ విధానాన్స్తి కొనసాగించడం.
- ప్రాజెక్ట్ ప్రారంభించడానికి ముందు అవసరమైన స్థానిక గ్రామీణప్రజలు తమ పనులు చేసుకోవడానికి వీలు కర్పించడం.
- రూ.1,50,000 వరకు వ్యవసాయ ఋణ మాఫీ / ఎస్ ఆర్ ఇ జి ఎ పథకం క్రింద 365 రోజులు పని కర్పించడం/ భృతితో వృత్తిశిక్షణ/ఉచిత విద్య/ప్రభుత్వం నిర్దారించిన ఇతర సౌకర్యాల క్రింద ఉచిత వైద్య సౌకర్యాలు కర్పించడం.
- పేదకుటుంబాలకు స్వయంఉపాధికై రూ. 25 లక్షలవరకు వడ్డీలేని ఋణ సదుపాయం.

#### 1.5. జీవనోపాధిపై ప్రభావం

 ఈ ప్రాజెక్ట్ నిమిత్తం తమ భూమిని ధారాదత్తం చేసిన కుటుంబాల జీవితాలపై దీని ప్రభావం పెంటనే లేదా దీర్ఘకాలంలో పడే అవకాశం ఉంది. ఈ ప్రాంతంలోని ప్రజలలో అధికభాగం (భూయజమాని మరియు భూమిలేని వారిపై) తమ జీవనోపాధికై వ్యవసాయంపై ఆధారపడి ఉన్నారు. దీనివల్ల ఇక్కడి ప్రజలు శాశ్వతంగా ప్రస్తుత జీవనోపాధి కోల్పోయే అవకాశం ఉంది.

#### 1.5.1. ఉపశమన చర్యలు

ల్యాండ్ పూలింగ్ పథకం క్రింద అధిక స్థాయిలో భూమి సేకరించడం వల్ల, జరిగిన నష్టానికి ప్రభావితమైన వారికి ఉపశమనంగా తీసుకొన్న క్రింది చర్యలు కొంతవరకు ఆ నష్టాన్ని తగ్గించగలుగుతాయి:

- నష్టపరిహార చెల్లింపు మరియు ఎల్ ఏ ఆర్ & ఆర్ చట్టం, 2013 ప్రకారం ఆర్ & ఆర్ లాభాలు.
- భూమికోల్పోయిన వారికి ప్రాజెక్ట్ నిర్మాణ సమయంలో అర్హతను బట్టి ఉపాధి కల్పనలో ప్రాధాన్యత.
- ప్రభావితమైన ప్రజలకు ప్రాజెక్ట్ నిర్వహణ సమయంలో జీవనోపాధి అవకాశాలు మెరుగు పరచుకొనేందుకు అవసరమైన వృత్తినైపుణ్యంలో శిక్షణ కర్పించడం.

#### 1.6. సౌకర్యాలపై ప్రభావం

గ్రామీణస్థలం మొత్తం/ ఇతర ఆవాస ప్రాంతాలలో ఇప్పటికే ఉన్న విద్యుత్ లైన్లు, టెలిఫోన్ లైన్లు, నీటిసరఫరా, మొదలైనవి తొలగించడం నుండి మినహాయించబడినాయి. నిర్మాణ సమయంలో సాధారణ సౌకర్యాలకు ఏవిధమైన ఇబ్బంది కలుగకుండా పూర్తి జాగ్రత్తలు తీసుకోబడతాయి. ప్రతిపాదిత ప్రణాళికలో మౌలిక సౌకర్యాల ఏర్పాటులో తీసుకొన్న చర్యల వల్ల జీవనస్థితి గతులలో మార్పు వస్తుంది.

#### 1.6.1. ఉపశమన చర్యలు

ప్రభావమనేది తక్కువగా ఉంటుందని అంచనా పేయబడింది. దిగువ తెలిపిన ఉపశమన చర్యలవల్ల సౌకర్యాలలో కలిగేందుకు అవకాశమున్న ఇబ్బందులు కూడా వీలయినంతగా తగ్గించబడతాయి.

- ఆ సౌకర్యాన్ని సంబంధిత విభాగ సమన్వయంతో స్థలం మార్చడం;
- ఏదేని సౌకర్యాన్ని స్థలమార్పిడి చేయవలసి వస్తే, దానివల్ల సౌకర్యంలో ఏదేని అంతరాయం ఏర్పడినట్లయితే, తాత్కాలిక ఏర్పాటు చేయడం;
- సౌకర్యంలో ఏదేని అంతరాయం ఏర్పడేటట్లయితే, ప్రజలకు దానిగురించి ముందుగానే తెలియపరచడం.

## 1.7. నిర్మాణ దశలోని ప్రభావాలు

ప్రాజెక్ట్ లోని నిర్మాణదశలో పరంపరగా ఏకమొత్తంగా "స్ప్రెడ్" అని పిలువబడే కొన్ని కార్యకలాపాలు జరుగుతాయి. ఈ ప్రాంతం నిర్మాణం, రోడ్లు పేయడం, స్థలాన్ని శుభ్రంచేయడం, గృహ, వాణిజ్య, మరియు పారిశ్రామిక యూనిట్ల నిర్మాణం, సామాజిక మౌలిక వసతుల నిర్మాణం, ట్రీట్ మెంట్ ప్లాంట్ నిర్మాణం, పారిశుధ్య పైప్ లైన్లు పేయడం, మరియు కార్మికుల వసతుల నిర్మాణం, మొదలైన వాటి వల్ల ప్రభావితమవుతుంది. పైన తెలిపిన కార్యకలాపాలపై పేసిన అంచనా మరియు వివిధ వాటాదారులతో చర్చించిన తరువాత నిర్మాణసమయంలో తలెత్తే దిగువ తెలిపిన ఇబ్బందులను తగ్గించవచ్చని అంచనాపేయబడింది.

#### 1.7.1. ఉపశమన చర్యలు

నిర్మాణ సమయంలో కొత్తవారు రావడం వల్ల మరియు వారికి సంబంధించిన ఏదేని ఆరోగ్యసమస్యలు ఇక్కడున్న సమాజంపై ప్రభావం చూపేందుకు అవకాశం ఉంది. ఈ ప్రభావాలు మధ్యస్థ స్థాయిలో ఉంటాయని మరియు దిగువ తెలిపిన చర్యలు అమలు చేయడం వల్ల ఇక్కడున్న వారి ఆరోగ్యంపై చూపే ప్రభావాన్ని కొంతమేరకు తగ్గించవచ్చని అంచనావేయబడింది.

- వీలయినంతవరకు స్థానికంగా లభ్యమయ్యే సైపుణ్యంలేని, తక్కువ సైపుణ్యం కలిగి ఉన్న, పూర్తిస్థాయి సైపుణ్యం కలిగి ఉన్నవారిని పనిలోకి తీసుకోవడం వల్ల వలసవచ్చే పనివారిని గణనీయంగా నివారించవచ్చు; గ్రామీణ వ్యవసాయ కూలీలను పట్టణ వ్యవసాయ/ వ్యవసాయేతర సైపుణ్యాలను పెంచుకోవచ్చు;
- పరిమితంగా లభించే స్థానిక వనరులపై ఆధారపడటాన్ని నివారించేందుకు నిర్మాణ క్యాంపులోని వలసకూలీలకు మౌలిక మరియు ఇతర ప్రాథమిక సౌకర్యాలు కల్పించవచ్చు;
- నిర్మాణ ప్రాంతంలోకి ఇతరులు రాకుండా నిరోధించేందుకు మరియు నిర్మాణసంబంధిత కార్యకలాపాల కలిగే దుష్పభావాల నుండి ప్రజలను రక్షించవచ్చు;
- మార్కెట్ మరియు ఆవాసప్రాంతాలలో పనిజరుగుతున్నప్పుడు మరియు ప్రత్యేకించి గోతులు తవ్వుతున్నప్పుడు అదనపు భద్రతా చర్యలు చేపట్టడం;
- వైద్యసౌకర్యాలు కల్పించడం ద్వారా పనివారికి పరీక్షలు, పర్యవేక్షణ, చికిత్స చేయించడం మరియు అవసరమయినప్పుడు రోగనిరోధక కార్యక్రమాలు చేపట్టడం;
- పనివారిలో ఆరోగ్యం పట్ల అప్రమత్తత కలిగించే, ప్రత్యేకించి సుఖవ్యాధులకు సంబంధించి వారిని జాగరూకులను చేసే విద్యాసంబంధమైన కార్యక్రమాలు చేపట్టడం;
- నిర్మాణం జరిగే స్థలం చుట్టుపక్కల ప్రాంతాలలోని ఆవాస ప్రాంతాలలో వ్యాధులు కలిగించే సూక్ష్మక్రిములు ప్రబలకుండా, లార్వా వ్యాప్తి చెందకుండా పారిశుధ్య చర్యలు చేపట్టడం;
- పెక్టార్ నియంత్రణ కార్యక్రమం అమలు చేయడం;
- నీరు నిలిచి ఉండకుండా చూడటం;
- వివిధ ఆరోగ్య సమస్యలు, నివారణ, పెక్టార్-ఆధారిత వ్యాధులు ప్రబలకుండా తీసుకోవలసిన జాగ్రత్తల గురించి ప్రాజెక్ట్ సిబ్బంది, మరియు నివాసముండే వారికి తెలియజెప్పడం;
- క్రిమికీటకాల బారినుండి రక్షణ పొందేందుకై రెపెల్లెంట్లు, బట్టలు, వలలు మరియు ఇతర నీరోధాలను వాడటాన్ని ప్రోత్సహించడం;
- పురుగు మందులు దుర్వినియోగం కాకుండా, చిందకుండా, మనుష్యులు ప్రమాదవశాత్తు వీటిబారిన పడకుండా వాటిని భద్రపరచడం, రవాణా మరియు పంపిణీలలో భద్రతాచర్యలు చేపట్టడం; మరియు రహదారి భద్రతా చర్యలు చేపట్టడం.

#### 1.8. సామాజికపరమైన వ్యయం & లాభాలు

ఈ విభాగం అమరావతి ఆం.ప్ర. రాజధాని నగర నిర్మాణ అభివృద్ధి ప్రాజెక్ట్ లోని లాభాలు (సకారాత్మక ప్రభావాలు) మరియు నకారాత్మక ప్రభావం (సామాజికపరమైన వ్యయం) గురించి తెలుపుతుంది. ఈ తుళ్ళూరు-1&2 గ్రామంలోని ఎ. 134.5280 సెం. భూసేకరణకు అయ్యే ఖర్చు రూ. 12.68 కోట్లుగా అంచనా పేయబడింది. సకారాత్మక మరియు నకారాత్మక ప్రభావాలు దిగువ ఇచ్చిన పట్టిక ఇ 3 లో చర్చించబడినాయి.

పట్టిక ఇ3: ప్రాజెక్ట్ యొక్క సకారాత్మక మరియు నకారాత్మక అంచనాలు

వ.	******************************	******	A standay on
