---	--	---

		<ul style="list-style-type: none"> • Planning and execution of projects as per the required scope of work • Preparation of Reports and Presentations • Knowledge of implementing MIS applications
6	Additional Director (Lands)	<p>Educational Qualification & Experience:</p> <ul style="list-style-type: none"> • Any Graduate with LLB • Should have minimum 15 years of experience in the cadre of Dy.Collector or Special Grade Dy.Collector dealing with revenue matters relating to land acquisition, land pooling policies, R&R and court cases etc. • Should not have under gone or subjected to any punishments under service rules or criminal cases. <p>Key Responsibilities:</p> <ul style="list-style-type: none"> • All subject matters relating to land acquisition, land pooling policies, R&R and court cases etc. • Co-ordination with Government Department in dealing with revenue matters and High-court cases. <p>Required Skills and Abilities :</p> <ul style="list-style-type: none"> • Minimum 15 years of experience in the cadre of Dy.Collector or Special Grade Dy.Collector dealing with revenue matters relating to land acquisition and land pooling policies, R&R and court cases etc. <p>Preferred Knowledge:</p> <ul style="list-style-type: none"> • Knowledge of working on E-office.
7	Assistant Planner - (UD & Architecture)	<p>Educational Qualification & Experience:</p> <ul style="list-style-type: none"> • Masters in Architecture with subjects in Urban Design /Masters in Urban Design with Bachelor of Architecture. • should have prior experience working in Government sector, Urban Development Authorities, Urban local bodies are preferred. • Should have knowledge in the field of urban design/planning and zoning regulations, land use, building bye laws with strong graphic and presentation skills is preferred. <p>Key Responsibilities:</p> <ul style="list-style-type: none"> • Developing Vision for places: using creativity and imagination to invent or re-invent the environments we live and work in • Designing built spaces: from whole towns and neighborhoods to individual streets or squares. • Advising on the design of developments and regeneration projects.

		<ul style="list-style-type: none"> • Researching and analyzing places and people: understanding the physical, political, economic, spatial, and psychological context of the places you work with and the people who use them Influencing people by using your skills and knowledge to help others make better decisions and teach them how to make successful places. • Developing guidance and policies relating to the built environment. • Community consultation: helping the public to take part in planning and designing their neighbourhoods. • Graphic representation from sketching and technical drawing to using the latest technologies and packages in visualization and computer-aided design. • Prepare detailed designs for public spaces, transportation nodes, junctions, mixed-use, community spaces, public squares. • Preparation of urban design guidelines, design codes and other relevant strategies. • Technical and design input on a broad range of projects, ensuring work quality is maintained at the expected standard. • Prepare project reports and presentation summarizing key issues and strategically advising on best outcomes. • Co-ordinate with the multi-disciplinary professionals in the projects. • Co-ordinate studies of the site (including contours, soil, ecology, environment, water, buildings, roads, heritage) <p>Required Skills and Abilities:</p> <ul style="list-style-type: none"> • Proficiency in CAD, Office tools, 3D modelling and rendering especially open source softwares. • Strong design and graphics abilities including hand concept sketching and the creation of both digital and hand drawn graphics, maps, and illustrations. • Knowledge of Government codes, laws and regulations. • Strong graphic and presentation skills. • Ability to communicate clearly and concisely both verbally and in writing. • Ability to work in a team environment. • Ability to effectively meet deadlines. <p>Preferred Knowledge:</p> <ul style="list-style-type: none"> • Planning standards, layout and building rules. • Ability to balance various project and organization responsibilities and deadlines while maintaining professionalism and quality.
8	Planning Assistant	<p>Educational Qualification & Experience:</p> <ul style="list-style-type: none"> • Bachelor of Architecture or Planning. • Applicants with Architecture graduation and who have minimum two years prior experience working in Government sector, Urban Development Authorities, Urban local bodies are preferred.

		<ul style="list-style-type: none"> • Applicants should have knowledge in the field of planning and zoning regulations, land use, building bye laws with strong graphic and presentation skills is preferred. <p>Key Responsibilities:</p> <p>should have knowledge in the field of planning and zoning regulations, land use, building bye laws with strong graphic and presentation skills is preferred.</p> <ul style="list-style-type: none"> • Prepare Layout drawings, Architectural drawings. • Prepare project reports, documentation and presentations. • Conduct preliminary studies of the built spaces: • Co-ordinate with the multi-disciplinary professionals in the projects. • Site assessment and co-ordination. • Conduct and co-ordinate studies of the site <p>Required Skills and Abilities</p> <ul style="list-style-type: none"> • Proficiency in CAD, Office tools. • Proficiency in BIM, 3D modeling and rendering preferred. • Communicate design ideas through sketching, graphics and visualization. • Strong design and graphics abilities including hand concept sketching and the creation of both digital and had drawn graphics, maps, and illustrations. • Strong graphic and presentation skills. • Ability to communicate clearly and concisely both verbally and in writing. • Ability to work in a team environment. • Ability to effectively meet deadlines • Basic knowledge of Layout and Design Principles. • Design — Knowledge of design techniques, tools, and principals involved in production of precision technical plans, blueprints, drawings, and models. • Ability to balance various project and organization responsibilities and deadlines while maintaining professionalism and quality.
9	GIS & RS Assistant	<p>Educational Qualification & Experience:</p> <ul style="list-style-type: none"> • B.Tech / B.E Geo informatics /ME/M. Tech Remote Sensing/ ME/ M.Tech Geo Informatics. • Should have prior experience working in Government sector, Urban Development Authorities, Urban local bodies are preferred. • Should have knowledge in the field of GIS with strong graphic and presentation skills. <p>Key Responsibilities :</p> <ul style="list-style-type: none"> • Preparation of thematic maps for assigned tasks for Capital City & Capital Region such as Master Plans, LPS layouts, Infrastructure planning maps etc., • Collection, conversion, editing of various thematic layers acquired from various sources like Survey of India, NRSC, APSAC etc., • Analysis of Spatial data and preparation of Thematic maps.

- Responsible for generation of maps and other GIS reports and information products.
- Work on GIS activities related to Asset management, Land Management, preparation of Master Plans, creation of LPS Layouts and preparation of thematic maps from the existing spatial data.
- Compiling and organizing GIS data from maps, databases and other sources; collection of data in the field using Differential Global Positioning System (DGPS).
- Control of units of measurements in the maps, collection and conversion of mapping resources and data.
- Ensure that the maps generated are as per the quality standards laid out in the Geodatabase, or any other applicable standard or policy; Create and document procedures and metadata definitions.
- Site co-ordination.

Required Skills and Abilities :

- Proficiency in ESRI ArcGIS Desktop 10.5 and above versions with knowledge in ArcGIS Extension like Spatial Analyst, Network Analyst, 3D Analyst, Geo Statistical Analyst.
- Preferred with QGIS, Arc GIS Pro especially open source softwares.
- MS Office, CAD and allied tools.
- RDBMS: Postgre SQL, MS SQL Server, Oracle, DB2, C#
- Development Environment: Python, Microsoft .NET, Java
- WebGIS Software: ESRI ArcGIS Enterprise Server 10.5 and above versions
- ASP.NET, CSS, AJAX, JavaScript & HTML 5
- Front-End (html / javascript) and Back-End (RESTful Services, GIS, Python, Java, Shell Scripting,) development
- ESRI application development framework for ArcGIS Server 9x/10x, ArcSDE 9x/10x , ArcPro and ArcObjects 9x/10x (ArcGIS Desktop 9x/10x)
- ArcSDE Administration
- Implementation of ArcSDE geodatabases
- Develop python programs within GIS domain
- Develop JavaScript sites within GIS domain
- Development of web and/or desktop GIS based applications using open source technology.
- Creation / Conversion of data acquired from various sources to create new map layers using ArcGIS software.
- Editing of GIS data, Symbology and linking of attribute data to GIS layers.
- Creation of layouts for preparation of thematic maps.
- Analyze Geographic Information Systems (GIS) data to identify spatial relationships or display results of analyses, using maps, graphs, or tabular data.
- Work on spatial databases to store GIS data.
- Enter data into Geographic Information Systems (GIS) databases, using techniques such as coordinate geometry, keyboard entry of tabular data, manual digitizing of maps, scanning or automatic conversion to vectors, or conversion of other sources of digital data.
- Review existing or incoming data for currency, accuracy, usefulness, quality, or completeness of documentation.

		<ul style="list-style-type: none"> • Perform geospatial data building, modelling, or analysis, using advanced spatial analysis, data manipulation, or cartography software. • Select cartographic elements needed for effective presentation of information. • Interpretation of Satellite Imageries, Drone Imageries, Aerial Photos, Ortho photographs. • Classification of Satellite Imageries for preparation of Land Use maps. • Strong organizational, time management and interpersonal skills. <p>Preferred Knowledge :</p> <ul style="list-style-type: none"> • Applicants with excellent programming within GIS domain are preferred. • Experience in analysing spatial data in an urban planning environment and translating Organization requirements into appropriate GIS reports and thematic maps. • Modern component-based GIS tools and methodology for urban and utility GIS use cases, Knowledge of SQL Databases and ArcGIS Enterprise Server is an added advantage. • Principles and methods for describing the features of land, sea, and air masses, including their physical characteristics, locations, interrelationships, and distribution of plant, animal, and human life.
10	Assistant Planner (Landscape Architect)	<p>Educational Qualification & Experience:</p> <ul style="list-style-type: none"> • B.Arch and M.Arch (Landscape Architecture) with minimum two years of experience in landscape projects <p>Key Responsibilities:</p> <ul style="list-style-type: none"> • Conceptual plans for landscape and greenery development considering the local climate and master plan of the city • Detailed design, drawings for landscape development • 3D Designs and walk throughs • Preparation of Bill of quantities • Site level coordination with the field execution teams and supply of working drawings • Design of urban landscaping features using materials water, rock, metals and vegetation • Design of aesthetic elements in the landscape areas, along important corridors, Avenues, public places etc • Development of technical guidelines for greenery development • Design of irrigation and fertigation systems • Any other directions given by the department. <p>Required Skills and Abilities :</p> <ul style="list-style-type: none"> • Thorough understanding of Native tree species, flowering species, Annuals and seasonals etc • Good knowledge about climate types • Knowledge about weed species

		<ul style="list-style-type: none"> • Knowledge about water conservation, soil types, water stagnant species • Knowledge about irrigation systems • Softwares - well versed with Sketchup, Auto Cad LT, Photoshop. Aware of other softwares like Lumion, Rhino etc • Documentation - good in writing and presentation.
11	Horticulture officer	<p>Educational Qualification & Experience:</p> <ul style="list-style-type: none"> • B.sc in Horticulture / Agriculture • Should have minimum 10 years of experience garden maintenance, development, nursery management, horticulture and landscaping. • Horticultural officers with experience in Government Department will be preferred. <p>Key Responsibilities:</p> <ul style="list-style-type: none"> • Prepare the detailed estimates, as per the report of his supervisors and thorough site investigation and prepare Bid document and Agreement. • Preparation of the action plans for various projects under his control. • Approve the plants quality reported by the contractor prior to the procurement. • He should regularly monitor the works under his control and ensure that the execution is as per the BoQ and action plan time lines. • The officer has to communicate the changes in the design/Plan to the supervisors under his control and accordingly change the action plan to minimise the loss in time/resources/labour/cost. • Check measure the recorded measurements by the supervisors. • Inspect all the nursery sites, quality of work, overall maintenance of the nurseries, check the records maintained by the supervisors. He should also find the gaps against targets to be completed. • The officer should check measure the recordings of the supervisor. • The officer should ensure that all the works under his control are executed by preventing any damage to the environment and by protecting the environment, conserving the resources. • The officer should make aware of his supervisors the adversities of the unwise application of the chemicals to the workers on site and the environment. • The officer should instruct the concerned contractor and supervisor to take suitable protective measures on site as part of occupational safety. • Any other directions given by the department. <p>Required Skills and Abilities:</p> <ul style="list-style-type: none"> • Experienced Horticultural officers from Government Department only will be considered.
12	Director - Planning & Resource Mobilisation	<p>Educational Qualification & Experience:</p> <ul style="list-style-type: none"> • Masters in Urban Planning/Masters in Urban and Regional Planning or 1) B.E./B.Tech Civil or Environmental Engineering / 2) B.Planning / 3) B.Arch/ 4)PG in Geography

		<ul style="list-style-type: none"> • Applicants should have overall 30 years of experience out of which at least 15 years should be in a lead role i.e., technical head of any institution • Key Responsibilities: <ol style="list-style-type: none"> 1. Planning and Development <ul style="list-style-type: none"> • Master Plan Preparation: Prepare, review, and finalize master plans for urban areas, including land use, transportation, and infrastructure planning. • Detailed Development Plans: Prepare and review detailed development plans for specific areas, including layout plans, zoning regulations, and infrastructure plans. • Urban Design: Provide urban design inputs for development projects, including public spaces, transportation systems, and building design guidelines. 2. Policy and Regulation <ul style="list-style-type: none"> • Policy Formulation: Assist in formulating policies and guidelines for urban development, including affordable housing, and environmental sustainability etc. • Regulatory Framework: Review and update regulatory frameworks, including building bylaws, zoning regulations, and environmental regulations. • Compliance and Enforcement: Ensure compliance with urban development regulations and policies, and enforce penalties for non-compliance. 3. Project Planning <ul style="list-style-type: none"> • Project Planning: Plan and coordinate urban development projects, including infrastructure development, transportation systems, and public facilities. • Project Monitoring: Monitor progress of urban development projects, including timelines, budgets, and quality control. • Stakeholder Coordination: Coordinate with stakeholders, including government agencies, private developers, and community groups. 4. Research and Development <ul style="list-style-type: none"> • Urban Research: Conduct research on urban development issues, including housing, transportation, and environmental sustainability. • Best Practices: Identify and disseminate best practices in urban development, including innovative technologies and planning strategies. • Capacity Building: Provide training and capacity-building programs for urban development professionals. 5. Resource Mobilisation <ul style="list-style-type: none"> • Budgeting: Prepare and manage budgets for urban development projects and programs. • Raising Resources for Urban and Regional Development • Financial Management: Manage financial resources, including grants, loans, and private sector investments. • Required Skills and Abilities: <ul style="list-style-type: none"> • Data Analysis: The ability to analyze data such as population trends, land use patterns, and transportation statistics to inform planning decisions. • Problem-Solving: Identifying urban challenges (e.g., traffic congestion, housing shortages) and developing practical, sustainable solutions.
--	--	--

		<ul style="list-style-type: none"> • GIS (Geographic Information Systems): Proficiency in mapping software to visualize data, assess spatial relationships, and design urban environments. • Urban Design Principles: Understanding of the aesthetic, functional, and sustainable design of public spaces, buildings, streetscapes, and neighborhoods. • Zoning and Land Use Regulations: Knowledge of local zoning laws, land-use policies, and building codes that guide how land can be developed and used. • Infrastructure Planning: Expertise in planning for transportation systems, utilities (water, sewer), green spaces, and other urban infrastructure. • Sustainable Development Practices: Knowledge of green building practices, renewable energy integration, and environmental impact assessments. • Climate Change Adaptation: Understanding how urban environments can be designed to mitigate and adapt to climate change (e.g., green roofs, energy-efficient buildings). • Environmental Regulations: Awareness of environmental laws and standards that govern land development and construction. <p>Preferred Knowledge:</p> <ul style="list-style-type: none"> • 30 years' experience working in Government sector, New Towers, Urban and Regional Development Authorities, Urban local bodies .
